

# Javelin™

## Urinal Treatment

**Javelin™ Urinal Treatment** is a drain opener and maintainer designed to tackle urinal drain blockages and restrictions. Urinal drains are subject to repeated build-ups of uric salt which form hard and difficult to remove deposits inside drain lines, resulting in blockages and foul odors. Javelin™ Urinal Treatment dissolves the uric salt build-up, eliminating the time consuming work of mechanically removing these deposits, keeping urinal drains open and eliminating nasty odors.

### FEATURES

#### RESTORES AND MAINTAINS URINAL DRAIN FLOW

Quickly breaks down hard, uric salt deposits.

#### SAVES LABOR COST AND TIME

Eliminates the need for urinal removal and mechanical drain opening.

#### ELIMINATES FOUL ODORS

Destroys the source of urinal odors.

#### PREVENTS FUTURE BUILDUPS

Leaves behind a protective, non-stick coating which prevents restrictions from forming. Javelin™ Urinal Treatment clings to the pipes and urinal bowls.

### PRODUCT APPLICATION

- Urinal drains – use to restore and maintain drain flow and eliminate foul odors.

### SPECIFICATIONS

Physical Form: Liquid

Color: Blue

Odor: Acidic

pH: < 1.0

Specific Gravity: 1.10

wt/gal: 9.16

Flash Point: Not Applicable

Shelf Life: One Year Minimum

VOC Content: Not Applicable

D.O.T. Shipping Label: See SDS

For more information see product label.

### PACKAGING

Javelin™ Urinal Treatment is available in the following packaging options:

- 1 Quart Bottle (6 per case) ..... 1502617

**Many customers have experienced the following:**

**PROBLEM:**

**Maintaining urinal drain lines and managing restroom odors**

- Urinal drains become slow and sometimes overflow
- Persistent, foul odors emanating from urinals
- Drain treatment products that are not effective on urinal drains
- Urinal drains are subject to uric salt build up. This build up forms a rock like substance
- Time-consuming and costly removal of urinals and mechanical drain rodding to restore flow

**SOLUTION:**

**Javelin™ Urinal Treatment drain control**

- Industrial strength formula designed to break through uric salt and rust deposits in urinal drains
- Attacks, breaks down and flushes away the very source of foul urinal odors
- Specifically formulated to treat the uric acid salt deposits that form restrictions in urinal drains – others can't make this claim
- Prevents the expense and downtime of snaking a urinal drain due to the buildup of scale and uric acid salt deposits
- Clings to drain lines leaving a non-stick, protective coating to prevent future buildup
- Restores urinal drains to original flow capacity
- Javelin™ Urinal Treatment is safe in the fixture and can be left overnight

**APPLICATIONS:**

- Recommended for urinals in:
  - Hotels and motels
  - Sports arenas
  - Restaurants
  - Commercial and industrial buildings
  - Banquet halls
  - Bars
  - Schools
  - Manufacturing plants

Attacks calcium buildup, scale and odor

# JAVELIN™

## Urinal Treatment

Dissolves uric salt build-up in urinal drains

### Tratamiento de mingitorios

Disuelve úrico acumulación de sal en los drenajes de mingitorios

**POISON:**  
CAUSES SEVERE BURNS. MAY BE FATAL IF SWALLOWED. VAPOR HARMFUL. Read additional cautions on back panel.

**VENENO:**  
CAUSA QUEMADURAS GRAVES. PUEDE SER MORTAL EN CASO DE INGESTIÓN. VAPORES PELIGROSOS. Lea las precauciones adicionales en el panel posterior.

Net Contents: 32 fl. oz. (1 qt.) (946 mL)  
Contenido neto: 32 onzas fluidas (1 cuarto de galón) (946 mL)

### Urinal Treatment

Monthly application of JAVELIN™ URINAL TREATMENT will effectively keep urinals free flowing and reduce the need for excessive odor control products.

#### DIRECTIONS:

For Removal of Uric Acid Salt Build-up, Mineral Scale and Odor Elimination

**URINAL TREATMENT:** Remove waste debris, urinal screens and urinal blocks. Shut off automatic flush and remove as much standing water as possible. Pour 16 fl. oz. (473 mL) into urinal and allow JAVELIN™ URINAL TREATMENT to work for 45 minutes to 1 hour while acid action takes place inside drain line. Place bowl swab over urinal and wet with JAVELIN™ URINAL TREATMENT. Clean vertical surfaces with special attention to areas behind and under flush rim. The use of a lighted inspection mirror will reveal all areas of hidden scale build-up. Flush urinal several times to rinse away dissolved scale. Repeat this process if necessary. For urinals that have been completely clogged or very slow draining, use an entire bottle and let sit overnight.

The use of JAVELIN™ URINAL TREATMENT on other restroom surfaces such as sinks, bathtubs, marble or enameled surfaces is not recommended as surface damage may result.

KEEP BOTTLE UPRIGHT DURING TRANSPORTATION AND STORAGE. DO NOT PLACE BOTTLE ON CLOTHING, CARPETING UPHOLSTERY OR ANY SURFACE THAT MAY BECOME DISCOLORED OR DAMAGED.

### Tratamiento de mingitorios

La aplicación mensual de JAVELIN™ URINAL TREATMENT mantendrá de manera eficaz un buen flujo en el mingitorio y reducirá la necesidad de emplear una cantidad excesiva de productos para controlar el olor.

#### INSTRUCCIONES:

Para la eliminación de la acumulación de sales de ácido úrico, incrustaciones minerales y olores

**TRATAMIENTO DE MINGITORIOS:** Retire los residuos, las mallas del mingitorio y los bloques del mingitorio. Interrumpa el enjuague automático y elimina la mayor cantidad de agua estancada posible. Vierta 16 onzas fluidas (473 mL) en el interior del mingitorio y deje trabajar JAVELIN™ URINAL TREATMENT durante 45 minutos a 1 hora mientras ocurre la acción ácida dentro de la línea de drenaje. Coloque un hisopo para tazones sobre el mingitorio y humedézcalo con JAVELIN™ URINAL TREATMENT. Limpie las superficies verticales, prestando atención especial a las áreas detrás y debajo del reborde de enjuague. El uso de un espejo iluminado de inspección revelará todas las áreas de acumulaciones ocultas de incrustaciones. Suelte el agua en el mingitorio varias veces para enjuagar y eliminar las incrustaciones disueltas. Repita este proceso en caso de ser necesario. Para el caso de mingitorios que han quedado completamente obstruidos o cuyo drenaje es muy lento, utilice todo un envase y deje reposar de la noche a la mañana.

No se recomienda el uso de JAVELIN™ URINAL TREATMENT en otras superficies del baño como lavabos, tinas y superficies de mármol o esmaltadas dado que pueden ocurrir daños a las superficies. MANTENER EL ENVASE EN POSICIÓN VERTICAL DURANTE EL TRANSPORTE Y ALMACENAMIENTO, NO COLOCAR EL ENVASE SOBRE ROPA, ALFOMBRAS, TAPIZADO O CUALQUIER OTRA SUPERFICIE QUE PUDIERA QUEDAR DECOLORADA O DAÑADA.

**POISON: CAUSES SEVERE BURNS. MAY BE FATAL IF SWALLOWED. VAPOR HARMFUL.** Avoid contact with eyes, skin and mucous membranes. Use with adequate ventilation. Do not breathe vapors. Do not take internally. Wear chemical-resistant gloves and eye protection when using this product. Wash contaminated clothing before reuse. Do not add water to acid. Add acid slowly to water. Do not mix with chlorine-type bleaches or other household chemicals. **Keep out of reach of children.**

**FIRST AID:** In case of eye contact, flush with water for at least 15 minutes and get immediate medical attention. In case of skin contact, immediately flush with water for at least 15 minutes and get medical attention. Remove any contaminated clothing. If swallowed, do not induce vomiting. Drink large quantity of water or milk and get immediate medical attention. If vapors are inhaled or breathing becomes difficult, move person to fresh air. If symptoms persist, get medical attention.

**CONTAINS:** Hydrochloric Acid, Water, Nonylphenol Ethoxylate, Propargyl Alcohol and Perfluoroalkyl Methacrylic Copolymer. Phosphate Free.

**WARNING:** This product contains a chemical known to the State of California to cause cancer and birth defects or other reproductive harm.
