

**Honeywell meets all your hydronic needs in one easy package with the TK Series Combination Boiler Trim Kit.**

Rather than taking the time to locate and purchase the pieces separately, the boiler trim kit gives you *all* the accessories needed for a boiler installation. Each kit includes an Expansion Tank, a Boiler Fill Valve/Backflow Preventer, a SuperVent™ Air Eliminator or an Air Purger/Vent, and check valves. It's a complete, timesaving solution in one handy box — just add water.

# Boiler Trim Kit

COMPLETE, CONVENIENT AND EASY TO CARRY.

The Honeywell Boiler Trim Kit is all you need to install a boiler in one convenient package. It is one-stop shopping that saves you time and labor. Buy a boiler: buy a kit. It's that simple!

**Expansion Tank** — welded, not clamped, for longer, leak-proof life.

**Check Valves** — allows replacement of expansion tank and/or air vent without draining the heating system.

**SuperVent™ Air Eliminator** — optimal air removal from hydronic systems.

**DialSet Boiler Fill Valve/Backflow Preventer** — easy dial-set technology allows simple output pressure setting in psi.

## Updated Hydronic Accessories

### DialSet Boiler Fill Valve

VF06-100-SUSUT

- Calibrated dial to easily change outlet psi on valve
- Integrated 1/4" NPT pressure gauge port for testing
- Fill valve has 1/2" internal NPT threads and external union threads on both input and output sides
- Manual shutoff valve on bottom
- Internal check valve
- Includes union nut, sweat and threaded tailpiece

### DialSet Boiler Fill Valve and Backflow Preventer Combo

FM911

- Fill valve and backflow preventer sold together
- Fill valve has 1/2" internal NPT threads and external union threads on both input and output sides
- 1/4" NPT port on side for optional gauge
- Manual shutoff valve on bottom
- Internal check valve
- Includes union nut, sweat and threaded tailpiece
