

MULTI-FUNCTIONAL PIPE CLAMPS

Designed for use with copper, steel, PEX and CPVC pipe, Oatey Multi-Functional Pipe Clamps offer ultimate installation flexibility for all your pipe support needs. Can be mounted directly on studs, or to brackets and threaded rods using Oatey's line of accessories. Complete jobsite flexibility.

SELF-CLOSING CLAMPS

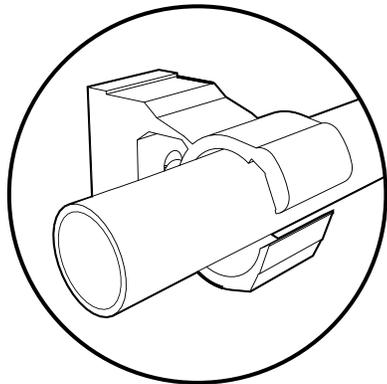

- Easily closes by pushing the pipe into the clamp
- Clamps can be interlocked for running multiple pipes together
- Resistant to UV, aging, oil and gas - making them suitable for indoor and outdoor use

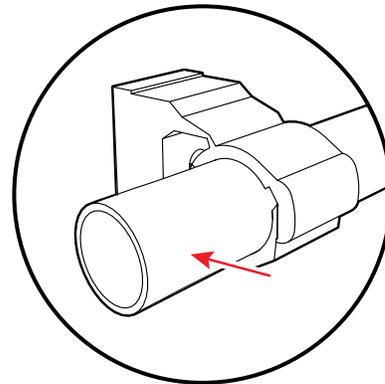

Plenum rated and listed to ASTM E-84, meeting safety standards

PLACE PIPE INTO CLAMP

To unlock, simply add pressure and open the clamp.

PUSH PIPE TO FIX AND LOCK

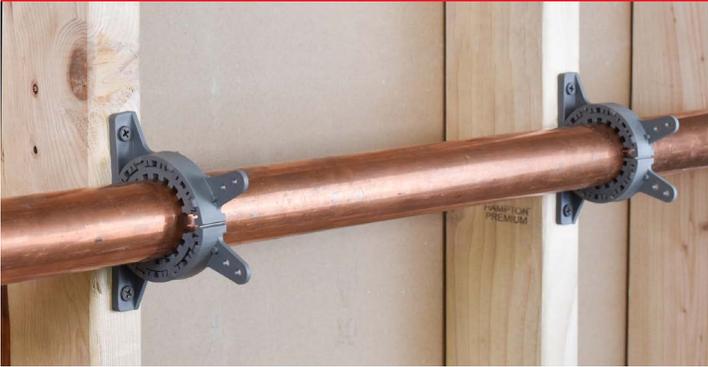

Push to set. Double click to lock into place.

COMBO CLAMPS

- Mounts directly to brackets, studs and walls
- Multi-use mounting holes for securing at base or top
- Can be used as a grommet when mounted on wood or metal studs
- Nubs make it easy to confirm clamp is straight

Insert included with larger clamps to provide pipe size flexibility

SUSPENSION CLAMPS

- Allows pipe to be secured to joists and rafters or through studs
- Can be used as an insulator when running water distribution lines through wooden framing
- Eliminates contact between the pipe and framing surface, reducing water line noise

STANDARD CLAMPS

- Can be affixed to walls, studs and both sliding and angled wall brackets
- Allows pipe to be flush mounted to floors, walls and joists
- Can be used with hydronic heating systems
