### FUNCTIONAL DESCRIPTION

SDR11 compression-sleeve coupling is intended for use in radiant heating applications, when used with RAUPEX® SDR11 PEXa pipes. SDR11 compression-sleeve joints create reliable connections that can be walled in or embedded directly in a thermal mass, when wrapped in waterproof, rubber tape or RAUCROSS™ heat shrink tubing for corrosion protection (check local codes for compliance).

Installation is performed with SDR11 compression-sleeve tools (Art. 228396-001). Tapered end installs toward fitting. Follow all published installation instructions.
