

Kahuna Box

Plastic Washing Machine Outlet Box with Hammer Arresters Specification Sheet

SPECIFICATION

Furnish and install Kahuna Outlet Box with Hammer Arresters as manufactured by LSP Products Group

DESIGN FEATURES

- Molded from high impact plastic
- Error proof no-knockout drains
- Dual drain feature allows for right or left outlet option
- Fill stack & test directly from the box using EX-fill Test Cap
- Red cosmetic plug for unused drain
- Optional condensate with visible air gap
- Top or bottom mountable valves
- All valve configurations available with or without hammer arresters
- All boxes featuring water hammer arrester valves include innovative plastic simplex handle, converting valves to single lever.
