

Water DetectingTM Paste

Division of ComStar Group

IPC's Water Detecting Paste will clearly indicate the amount of water in fuel oil tanks, gasoline, kerosene, other oils and most chemicals by the vivid purple color change that occurs when it comes in contact with water.

- *Non-irritating*
- *Securely adheres to measuring stick*
- *Will not contaminate the liquid in which it is submerged*
- *Thin liquids will indicate the presence of water instantly, dark heavy fluids may take a bit longer*

Stock No. 60-405, 60-406

*Available in 2 oz. jars
and 3 oz. tubes*
