BrassCraft®

INTRODUCING/ PRESENTACIÓN

Introducing the industry's strongest Service Parts program, with the best selection of No-Lead Compliant, Watersense® certified, OEM (Original Equipment Manufacturer), quality generic, and bulk packaged product.

Presentación de la industria más fuerte programa de piezas de servicio, con la mejor selección de No-Lead obediente, WaterSense® certificada, OEM (Original Equipment Manufacturer), la calidad genérica, y el producto a granel envasados.

For high-quality faucet repair/replacement products, and a comprehensive Service Parts program, look no further than BrassCraft Mfg's E-Z Find™ System. The unique sequentially numbered and color-coded identification system acts as a guide for product selection. This program is a full-fledged plumbing solution for the do-it yourselfer, seasoned professional, and retailer alike.

Para los productos de reparación del grifo / de reemplazo de alta calidad, y un programa de piezas de servicio integral, no busque más allá E-Z Find™ System de BrassCraft Mfg. La secuencia única numerada y sistema de identificación con código de color actúa como una guía para la selección de productos de productos. Este programa es una solución de plomería en toda regla para el profesional experimentado, y el minorista del hágalo usted mismo por igual.

	Products compliant with federal and state drinking water legislation.
	Identifies water-efficient products and programs that meet WaterSense® water efficiency and performance criteria. Products carrying the WaterSense® label perform well, help save money, and encourage innovation in manufacturing.
	See what's new since our March 2011 Catalog!
	Signifies compliance with The Americans with Disabilities Act (ADA)

Stems/Cartridges by Length Tallos / Cartuchos de Longitud

- Contains brass compression, washerless, and ceramic stems/cartridges
Contiene compresión de latón, sin arandelas, y cerámica tallos / cartuchos
- Stems/Cartridges are organized in order by length, broach, and manufacturer of faucet
Los tallos / cartuchos están organizados en orden por longitud, brocha, y fabricante de grifo
- Use the length gauge on the E-Z Find™ Faucet Repair Center or the following page to measure the stem/cartridge
Utilice el medidor de longitud sobre el E-Z Find™ Centro de Reparación del grifo o la siguiente página para medir el tallo / cartucho
- Count the teeth on your spline (broach) and use the broach gauge on the E-Z Find™ Faucet Repair Center to find the broach size
Cuenta los dientes en su spline (brocha) y utilice el calibrador brocha sobre el E-Z Find™ Centro de Reparación del grifo para encontrar el tamaño brocha
- Stem/Cartridge photos are actual size and include the faucet manufacturer's name, plus a complete breakdown of all the component parts with the related BrassCraft Manufacturing part numbers
Fotos Stem / cartucho son tamaño real e incluyen el nombre del fabricante del grifo, además de un desglose completo de todos los componentes con los números de parte BrassCraft Manufacturing relacionados
- The most common handles are indicated to make repairs easier
Los mangos más comunes están indicados para facilitar las reparaciones

	Products compliant with federal and state drinking water legislation.
	Identifies water-efficient products and programs that meet WaterSense® water efficiency and performance criteria. Products carrying the WaterSense® label perform well, help save money, and encourage innovation in manufacturing.
	See what's new since our March 2011 Catalog!
	Signifies compliance with The Americans with Disabilities Act (ADA)

Finding Your Stem

- Place stem on gauge at right with bottom flush to base of gauge.
- Determine the broach pattern of your stem using the gauge found on the following page.
- Note the broach code and match it to the stems in the Stems/Cartridges by Length section.
- Compare your stem to the pictures then verify that the broach codes match. Note your **PART NUMBER**, then locate it in the display.

Broach Point	Part Description	BrassCraft Broach Code

Handles Manijas

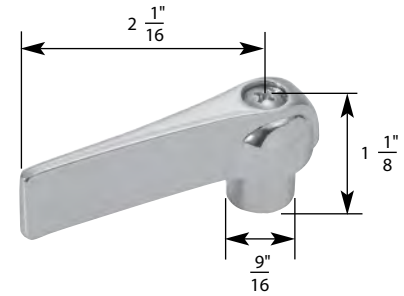

- **Handles are organized by faucet manufacturer, type, and broach**
Los mangos están organizados por el fabricante del grifo, el tipo y la brocha
- **Modernize your Lav/Kitchen and Tub/Shower faucets using BrassCraft Handle Adaptors and Universal Handles**
Moderniza tu Lav / Cocina y grifos de bañera / ducha usando adaptadores Mango BrassCraft y manijas Universal
- **Most Tub/Shower handles come with hot, cold, and diverter caps. This cuts down on the number of SKUs needed. One handle replaces three**
La mayoría de los mangos de bañera / ducha vienen con tapas calientes, frías y desviador. Esto reduce el número de SKUs necesarios. Una manija reemplaza tres
- **Lav/Kitchen handles are sold as pairs**
Manijas Lav / cocina se venden en pares
- **Use the gauges on the E-Z Find™ Faucet Repair Center to help choose the correct handle replacement**
Utilice los medidores en el E-Z Find™ Centro de Reparación del grifo para ayudar a elegir el reemplazo correcto manejo
- **Handle broach is displayed with each handle to improve chances of matching handles to stems**
Manejar brocha se muestra con todas las palancas para mejorar las posibilidades de asas a juego de los tallos
- **This section also includes a full line of Handle Adaptors, Caps, Escutcheons, Sleeves, and Nipples for most major faucet manufacturers**
Esta sección también incluye una línea completa de adaptadores de la manija, los casquillos, Escudos, mangas y pezones para la mayoría de los principales fabricantes de grifos

	Products compliant with federal and state drinking water legislation.
	Identifies water-efficient products and programs that meet WaterSense® water efficiency and performance criteria. Products carrying the WaterSense® label perform well, help save money, and encourage innovation in manufacturing.

Single Lever Sola Palanca

- BrassCraft Manufacturing has a comprehensive selection of single lever repair parts for most major faucet manufacturers

BrassCraft Manufacturing tiene una amplia selección de piezas de reparación de palanca individuales para la mayoría de los principales fabricantes de grifos

- Parts are organized by Balls, Cartridges, and Repair Kits

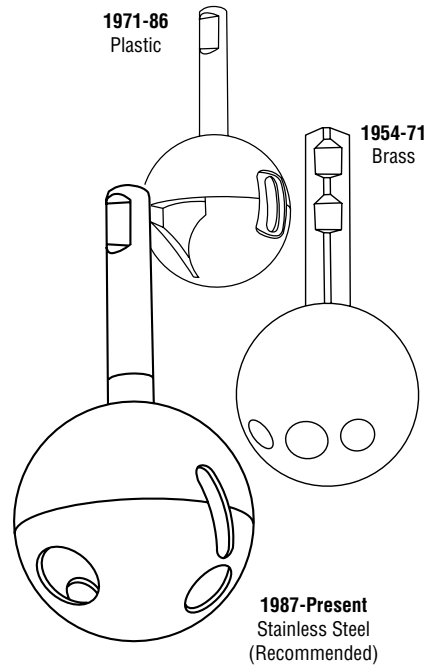

Las piezas están organizadas por bolas, cartuchos y kits de reparación

	Products compliant with federal and state drinking water legislation.
	Identifies water-efficient products and programs that meet WaterSense® water efficiency and performance criteria. Products carrying the WaterSense® label perform well, help save money, and encourage innovation in manufacturing.
	See what's new since our March 2011 Catalog!
	Signifies compliance with The Americans with Disabilities Act (ADA)

Since Delta's single handle faucet inception in 1954, Delta has been an industry leader and on the cutting edge of faucet innovations and technology. Delta offers more than 4000 faucets in 53 countries. This is why professionals and consumers alike have chosen to use Delta for their plumbing applications.

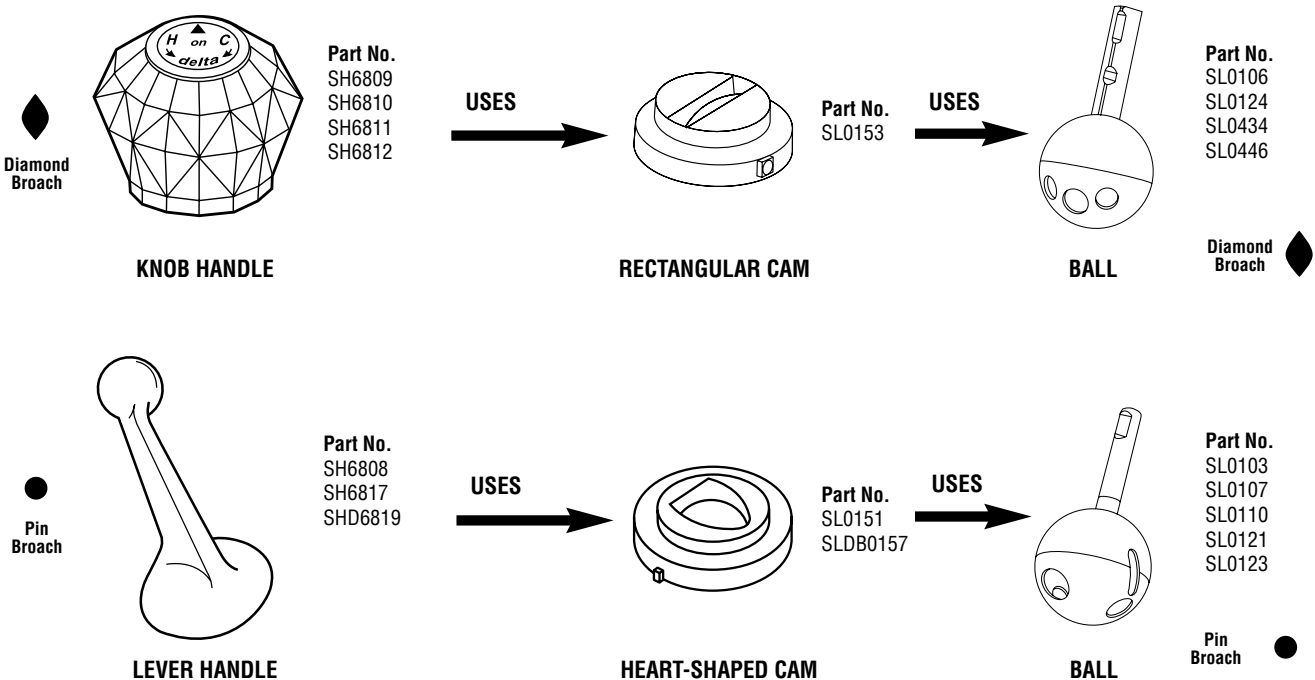

A Brief Chronology of the Delta Faucet

- 1971- First two-handle washerless faucet
- 1973- Pressure-balance Scald-Guard® valve
- 1978- Waterfall® kitchen faucets
- 1982- Powder Epoxy Overcoat for polished brass
- 1985- Gourmet Pull-Out Spray™ kitchen faucets
- 1988- NEO STYLE® line
- 1989- Monitor® 1500 pressure-balanced valves
- 1993- Monitor® 1300/1400 pressure-balanced valves
- 1994- Gourmet™ kitchen faucets
- 1995- Less Handle Program™ (LHP)
- 1995- Delta Select™ decorative lav products
- 1996- Innovations® and Brilliance®
- 1997- Single-handle Innovations®; Monitor® 1700 series and Monitor II™ two-handle pressure-balance valve

Reference Sheet for Delta Faucet Repair Parts

All other internal parts that are not shown are interchangeable on 100, 200, 300, 400, & 500 Series

	Products compliant with federal and state drinking water legislation.
	Identifies water-efficient products and programs that meet WaterSense® water efficiency and performance criteria. Products carrying the WaterSense® label perform well, help save money, and encourage innovation in manufacturing.
	See what's new since our March 2011 Catalog!
	Signifies compliance with The Americans with Disabilities Act (ADA)

Water Saving Aerators

Quick Reference Guide

There are multiple advantages when using water saving aerators. While being green by saving water is beneficial to our planet; it can also have a cost saving for your family.

1.5 GPM Low Flow vs. 2.2 GPM Standard Aerator = 30% Water Savings

1.0 GPM Low Flow vs. 2.2 GPM Standard Aerator = 55% Water Savings

Low Flow Aerators - WaterSense Certified

WaterSense helps consumers identify water-efficient products and programs that meet WaterSense water efficiency and performance criteria. Products carrying the WaterSense label perform well, help save money, and encourage innovation in manufacturing.

Lavatory & Kitchen Faucet Aerator Flow Rate Specifications: Maximum: 1.5gpm @ 60 psi • Minimum: 0.8 gpm @ 20 psi

MIXET®

TUB SPOUTS

CONSERVE WATER AND MONEY WITH MIXET SPOUTS

POSITIVE ACTION SHUT-OFF Diverter Spouts #71, #73, #81 and #83 Series

Now more than ever, water has become a precious commodity that needs to be conserved. National, regional and local building codes mandate the use of flow restricted shower heads to 2.5 G.P.M. @ 80psi. Most tub diverter spouts have a simple lift gate that diverts the flow of water to the shower head. Unfortunately, higher water pressure causes some water to flow directly through the tub spout, instead of the shower head. The result is wasted water and wasted energy to heat that water, which is like pouring money down the drain.

START conserving water and money TODAY with Mixet Positive Action shut-off diverter spouts.

These water pressure activated diverter spouts are available in both Quikspout® slip-on and iron pipe fit diverter applications and offer many great features. (Check out those features below.)

QUIKLIFT® Diverter Spouts #61 and #64

The Quiklift® diverter spouts feature a top-pull knob with gravity-assisted return. These spouts are available in both slip-on and iron pipe fit diverter applications.

TUB FILLER Spouts #70, #72, #80 and #82 Series

These tub filler spouts are available in both Quikspout® slip-on and iron pipe fit applications

All Mixet Diverter Tub Spouts offer the following features:

- CSA certified - B125.1
- Meet requirement of withstanding an operating supply pressure of 125 PSI (862kPa)
- Meet or exceed ANSI/ASME A112.181
- Comply with section 1601-1608, Title 20 of California Energy Commission Appliance Efficiency Regulations
- 1/2"-14 NPSM connection point for iron pipe fit applications
- Available in bagged, carded or clamshell packaging

POSITIVE SHUT-OFF SHOWER DIVERTER. AUTOMATICALLY CLOSES WHEN WATER IS TURNED OFF.

FULLY ADJUSTABLE. MORE THAN 1 INCH INSTALLATION TOLERANCE

QUIKSPOUT® INLET CONNECTION FOR STUB-OUT

Surtidos incluyen todos los elementos necesarios POP como peg ganchos, tapas de gancho, clavija danglers madre / cartucho, cabeceras, separadores, la literatura, y mucho más

- Part numbers are included for easy identification of POP material

Los números de pieza se incluyen para facilitar la identificación de material POP

ASSORTMENTS

BrassCraft offers a variety of options in product assortments to meet both your own needs and that of your customers. Carded and bulk assortments are offered in either OEM or Non-OEM versions. In addition, the assortments are regionally specific. This reduces the number of slower moving parts and increases the number of parts that your customers are seeking, allowing for more turns per foot. Assortments include all of the necessary parts and merchandising material that will not only make your display look great, but also function well and sell more product. All of the carded assortments are listed below.

PART NO	SIZE	DESCRIPTION
