QUICK AND EASY TO INSTALL AND SERVICE

The Q-Series has several features designed to reduce both installation and service time:

- Accommodates both horizontal and downflow applications
- No special rigging or brackets required for placement
- Side and bottom connection entrances
- Base rails with forklift slots
- Quick connect electric connections
- Factory-installed float switch
- Easy-to-install, plug-and-play accessories that do not require disassembly

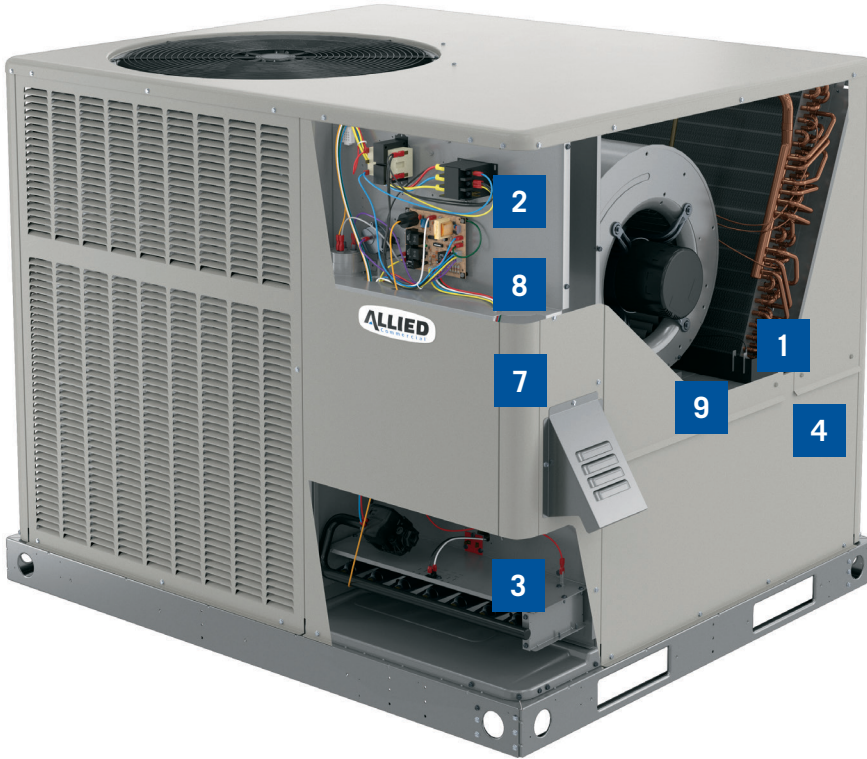

THE LOGISTICAL CHOICE FOR QUICK DELIVERY

The Q-Series is versatile and efficient when it comes to shipment, too. Allied Commercial has wholesale distributor partners throughout the U.S. and Canada, which gives you fast, local access to Q-Series equipment. The Q-Series is also designed to fit between the wells of a pickup truck. So you get the performance you need, when you need it.

To check availability near you, contact your local Allied Commercial distributor.
