The people in this house prefer this A/C pad.

When customers specify a pad, it's almost always concrete. And for a lot of good reasons. It looks great today, and it'll look great years from now. Because concrete resists the weather and UV rays better than plastic. It provides better vibration dampening — and that means a quieter AC unit. And it won't bend or warp — while you're installing it or years down the road.

Your customers deserve the quality of concrete, and you deserve the ease of installation and handling of today's concrete pad, UltraLite by DiversiTech. It weighs just 2.9 pounds per square foot. It doesn't sink. It doesn't warp. And it doesn't let the unit slip. It just sits there and does its job. Beautifully.

UltraLite. Today's concrete pad. It looks good. And it'll make you look good.

ULTRALITE
EQUIPMENT PADS
By DiversiTech

A company with one break-through product is like a rock band with one hit single. The band soon finds it must repeatedly deliver on the promise contained in that first song. Otherwise their audience will lose interest and drop away. DiversiTech was launched in 1971 as a pre-cast concrete manufacturing company with one exceptional product, the CladLite® Concrete Equipment Pad. In 1983 Charles Lipman became president. Not content with being a 'one-hit wonder', DiversiTech has delivered on its promises to customers, partners and employees. This focus and commitment has earned it a place in the HVAC industry as one of the fastest growing manufacturers in the U.S. and, increasingly, in the world.

Since 1971, DiversiTech has grown into its role as a leading supplier to wholesale distributors; it has maintained and developed its manufacturing expertise. Between its various divisions, subsidiaries and partnerships, DiversiTech owns and manages two distribution centers (Georgia, California) and three manufacturing facilities (Texas, Georgia, Florida) within the U.S. Through its ownership of East West Manufacturing, among others, the company also develops, engineers and manufactures product in China and Vietnam. By offering its customers a full assortment of components used for HVACR installation and maintenance, DiversiTech has become a primary product source for over 2,200 customers.

Charles Lipman, President

Jim Kirby, V.P. of Sales

But talk to customers and you soon find that it isn't just products that make working with DiversiTech worthwhile. Every DiversiTech employee refers to the concepts of **F**ocus, **I**ntegrity, **R**esults, **S**peed and **T**eam. Known as **F.I.R.S.T.**, a set of values directs and guides all DiversiTech relationships. As a document, it could be misconstrued as a top-down, spin-doctored 'corporate values statement'. "**F.I.R.S.T.** isn't an aspirational document. It was inspired by how we work here. It was written in an effort to capture the way we go about every element of our business."

FOCUS

At its core, DiversiTech is a manufacturer focused on parts, supplies, and accessories needed by the HVAC wholesale distributor. As a result, large and small wholesalers can now access a range of product and a class of service few other vendors can match. A wholesaler consolidating their purchasing with DiversiTech can continue offering their preferred products; but through DiversiTech the wholesaler can now access potential discounts, lower freight costs and simplified purchasing processes. And then there's the first-level access to DiversiTech manufactured products such as chemicals (subsidiary, Specialty Chemical), motors (Wagner Manufacturing), and other proprietary products.

Perhaps it is because it started as a manufacturing company DiversiTech owns a special credibility within this expertise. In fact, DiversiTech manufactured products comprise nearly 75% of its revenues. The range of product includes equipment mounting pads, whips, air conditioning disconnects, access valves, line tap valves, chemical cleaners, electric motors, line voltage monitors, thermostat guards, water treatment products, anti-vibration pads, and most any item a contractor needs to effectively install an air conditioning or refrigeration system.

Many DiversiTech proprietary products are highly-engineered, technically sophisticated parts and chemicals. In order to be best-in-class they require skilled, experienced people intent on bringing them to life. Still, it is important to manage development and production costs so that the product provides a truly cost-effective option to the customer. It was the need to bring quality and price into the proper balance that led to their off-shore manufacturing developments.

By combining the best talents found at-home and overseas, East West and DiversiTech are able to maintain the design and production qualities that might otherwise be lost in translation. By accessing the manufacturing capabilities found in the Far East, DiversiTech is able to offer first-class products at manufacturers' prices to the wholesale-purchasing customer.

For example, due for release in early 2006 is a new condensate pump that combines the best-in-class attributes of several other models into one technically advanced unit.

INTEGRITY

DiversiTech's customer centric approach includes focus on commitment, accountability and communication. It's a powerful combination that sanctions employee efforts to solve customer problems. If a customer contacts a sales executive about a missing or damaged shipment, that sales executive has the authority and commitment to set the problem to rights. Says one sales executive, "It's my job to make the process from order receipt to order delivery smooth and hassle-free. Within that I can do whatever is necessary to make it happen."

Product integrity is one expression of DiversiTech's commitment. If a product is manufactured by DiversiTech or a subsidiary, it is fully warranted by

the Company. As one wholesaler put it, "DiversiTech never says, 'Oh, that's never happened before! What did you do to it?' They are really interested in fixing the problem...and making certain that it doesn't happen again."

Ever in search of ways to grow everyone's business, DiversiTech maintains an 'Invention Portal' on its website, www.diversitech.com/invent. Anyone with a new HVAC product idea may submit their invention or product idea with confidence. The company promises to treat each idea professionally and courteously; even going so far as to admitting that an important component of an idea's commercialization is a fair compensation program for the originator!

www.diversitech.com/invent

RESULTS

DiversiTech's sales team works with a network of 30 manufacturer's representative organizations located throughout North America. In the HVAC trade channel, the Company sells only to wholesale distributors, but markets its products to both the wholesale distributor and contractors through point-of-purchase displays, detailed product catalogs and trade shows. And the Company has always maintained a 'guaranteed sales policy'. A DiversiTech customer can try any new product at no risk. If the product doesn't sell, then it can be returned for full credit. Policies like this that make it easier to try new products without endangering inventory control goals and quarterly sales results. And it makes it easier to do business with DiversiTech.

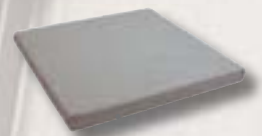

SPEED

Not so very long ago DiversiTech stood ready to receive a boat load of product coming to Atlanta from the Far East. But a spike in sales meant that the product was in demand and customers were eager to get their shipments. In order to make the product available, DiversiTech made arrangements to have the boat dock in California. Then they hired a team of drivers to transport the entire cargo across the country. As a result, the product was in the warehouse and available to customers 2 weeks ahead of schedule. This is just one example of DiversiTech's 'need for speed'.

One outstanding example is the new National Distribution Center in Conyers, Georgia. In addition to having over 10,000 pallet positions, DiversiTech has begun migrating to a comprehensive Warehouse Management System (WMS). These two improvements provide employees with a more pleasant and efficient work environment. At the same time, these upgrades make more products available, provide for faster fill rates and bring quicker order responses to the customer.

TEAM

Rapport is often mentioned as one of the keys to mutual success. DiversiTech regularly invites customers and partners to Atlanta to discuss industry trends, changing roles and service developments. The recently launched DiversiTech Co-Pilot™ program extends that rapport deeper into the industry. Initiated by the Product Development Team, the program matches an HVAC contractor with a DiversiTech engineer for 1-2 days. As a Co-Pilot™ participant, the contractor gets advance notification and samples of new DiversiTech product. The DiversiTech engineer gets a first-hand education regarding the contractor's daily challenges and some indication about what kinds of products might help. Contractors interested in joining the program can register at www.diversitech.com/co-pilot.

DiversiTech.
**North America's largest
manufacturer of equipment pads.**

DiversiTech manufactures the perfect pad for *your* installation.

DiversiTech is North America's largest manufacturer of equipment pads. The company maintains manufacturing and distribution facilities in key locations to bring the HVACR industry the broadest selection of equipment pads available from any manufacturer.

UltraLite™ Pads - the industry-leading lightweight concrete equipment pad unmatched by any other manufacturer.

CladLite® Pads - an industry standard since 1971.

E-Lite® Pads - a plastic alternative pad competitive with other plastic pads.

UltraLite™ Earthquake Pads – a variant of UltraLite™ specifically designed for geographic areas subject to special earthquake code requirements.

CladLite™ Hurricane Pads – a variant of CladLite™ specifically designed for geographic areas subject to special hurricane code requirements.

Heater Pads – an engineered concrete pad specifically designed for swimming pool pumps and heaters.

ULTRALITE™

FEATURES & BENEFITS

LIGHTWEIGHT At an average weight of 2-1/2 pounds per square foot (12 kg. per square metre), the UltraLite concrete pad is one of the lightest equipment mounting products available.

DUCTILE UltraLite's skin and core are specifically engineered for flexibility and ductility demanded on the job site. The outer skin's ductility allows conformance to slight ground contours without fracture.

DURABLE UltraLite's exterior is engineered for outdoor weather resistance.

TIME/LABOR SAVINGS Time is money — the UltraLite lightweight concrete pad literally installs in seconds while providing a solid foundation for the condensing unit.

CONCRETE SURFACE The pad's outer skin is not subject to ultraviolet degradation or weathering discoloration.

VIBRATION ABSORBING The engineered polystyrene core absorbs and dampens vibration associated with normal operation of a condensing unit.

FREEZE/THAW RESISTANT The pad is vapor permeable. Water vapor evaporates through the pad, thus the concrete outer skin is not subject to expansion cracks.

FLAME RESISTANT The pad's concrete outer skin is resistant to heating caused by the compressor. The surface also resists heat from incidental torch flame during installation.

OUTSIDE STORAGE This pad is intended for life outdoors and is suitable for exterior storage prior to installation.

TECHNICAL DATA

LOADING

To achieve maximum permissible pad load capacity, the earth under the pad must be able to support the transmitted compression load of the UltraLite pad. All values tabulated assume the earth has a bearing capacity of at least 1000 pounds per square foot (48 kPa).

The allowable loads assume a uniformly distributed loading on the pad surface (that is, a relatively flat-bottomed condenser unit in contact with the pad). For condenser units with footpads or other point loads, the maximum concentrated load

for any size UltraLite pad is 125 pounds per 2" (56 kg per 50 mm) diameter (or equivalent surface area) footpad.

FREEZE/THAW TESTING

The UltraLite pad has been independently tested to the rigorous freeze-thaw regimen specified by ASTM C67. This standard dictates a twenty-five cycle freeze-thaw sequence. The freeze portion of the sequence takes place with the top surface of the UltraLite pad under 1/2" (12 mm) of water. Once twenty-five cycles are complete, the pad is examined using visual magnification. No cracks or crazing is permitted. UltraLite has performed flawlessly.

CHEMICAL RESISTANCE

In normal usage conditions, an equipment pad can be exposed to a variety of chemicals. The UltraLite pad has been fully tested in accordance with ASTM D2299 for resistance against:

- R-22 and R-134a
- Compressor oil
- Salt solution, 20 percent by volume
- Synthetic canine urine

The UltraLite pad performs extraordinarily well — it does not craze, soften, delaminate, or spall under exposure in this test.

E-LITE®

E-Lite® is a plastic pad designed as a mounting base for air conditioning condensers. Injection molded from polypropylene, E-Lite® is gray – providing a subtle but elegant base for the condenser. Surface texturing in the pad helps prevent the condenser from sliding, and sizes molded right into the pad make selection easy.

FEATURES & BENEFITS

- Lightweight, yet rugged
- Drillable for securing unit
- Uniform ribbing transfers load evenly
- Unaffected by UV or weather
- Subtle texture resists unit slide
- High recycled plastic content

TECHNICAL DATA

MATERIAL

Polypropylene

FREEZE/THAW

Flawless performance under the 25-cycle regimen specified by ASTM C67

CHEMICAL RESISTANCE

Does not crack, flake, or warp when tested per ASTM D2299 with the following:

- R-22 and R-134a
- Synthetic canine urine
- Compressor oil
- Salt solution, 20% by volume

CLADLITE®

Consistent quality. Enduring strength. Trusted for over 30 years.

When DiversiTech introduced CladLite, the first foam-core concrete A/C pad, installers loved the light weight. Today, we make lighter pads with different materials, but one thing has never changed. Homeowners still expect and prefer concrete pads.

Once it's set, both the CladLite pad and the unit will stay in place. That permanence and the solid concrete look are what matter to the homeowner. Cladlite is available in over 70 sizes.

FEATURES & BENEFITS

- Concrete is highly valued by homeowners
- 80% lighter than solid concrete
- Continuous steel reinforcement
- Full foam bottom resists settling and vibration
- Impervious to weather

TECHNICAL DATA

ALLOWABLE LOAD

125 lbs. per 2" diameter foot

FREEZE/THAW

Flawless performance under the 25-cycle regimen specified by ASTM C67

CHEMICAL RESISTANCE

Does not craze, soften, delaminate, or spall when tested per ASTM D2299 with the following:

- R-22 and R-134a
- Synthetic canine urine
- Compressor oil
- Salt solution, 20% by volume

FOAM CORE

ASTM Type 1 EPS

FLAME RESISTANCE

Cladding resists compressor heat and incidental torch contact. Not to be used under heating devices.

HURRICANE PAD

DiversiTech's CladLite™ Hurricane and CladLite™ Hurricane T-Class pads are designed to Florida's tough standards for hurricane strength. These pads meet the new Florida code (see below). Limited shipping area. Please see item description for further details.

FEATURES & BENEFITS

- Steel reinforced
- 9,000 PSI fiber-concrete
- Much lighter than solid concrete
- CladLite™ Hurricane pads keep units from sliding or blowing over in 150 MPH winds when properly attached

MEET THE NEW CODE

DiversiTech's CladLite™ Hurricane and CladLite™ Hurricane T-Class equipment pads meet the 4" height requirement of the Florida Building Code, Mechanical Volume, effective March 2003.

Section 304.7 Clearance from grade. Equipment and appliances installed at grade level shall be supported on a level concrete slab or other approved material extending above adjoining grade a minimum of 4 inches (102mm). Suspended equipment and appliances shall be installed a minimum of 6 inches (152 mm) above adjoining grade.

CladLite™ Hurricane and CladLite™ Hurricane T-Class equipment pads have been designed specifically to meet the intent of the Florida Building Code, Chapter 16, with respect to wind resistance. Method of attachment tested per ASCE 7.

DiversiTech's CladLite™ pads have been declared by the Florida Building Commission to be an acceptable alternative material to solid concrete slabs for use in specific applications from Tallahassee to Miami. Approval of the pad is within the discretion of the local building inspector. DCA02-DEC-183

CladLite™ pads are approved by ICBO No. PFC-5112

EARTHQUAKE PAD

California UltraLite Pads are manufactured with a built-in attachment system for earthquake-proof installations. These UltraLite pads are manufactured with metal straps around the perimeter for secure, easy attachment of the a/c unit to the pad. Limited shipping area. Please see item description for further details.

FEATURES & BENEFITS

- Very lightweight – this pad averages 2-1/2 pounds per square foot (12 kg. per square metre).
- Durable pad exterior is specifically engineered for long-term outdoor weather resistance.
- Skin and core are engineered for flexibility and ductility demanded of job site handling.
- This pad installs in seconds while providing a solid foundation for the condensing unit.
- The concrete outer skin is not subject to ultraviolet degradation or weathering discoloration.
- The engineered polystyrene core absorbs and dampens vibration associated with normal operation of a condensing unit.
- Vapor permeable – water vapor evaporates through the pad, hence the concrete outer skin is not subject to expansion cracks.
- The outer skin resists heating caused by the compressor; skin also resists heat from incidental torch flame during installation.
- This pad is intended for life in the outdoors, thus is suitable for exterior storage prior to site installation.

TECHNICAL DATA

The UltraLite Earthquake pad shares the same testing results as the UltraLite pad. Please refer to page 2 for Loading, Chemical Resistance, and Freeze/Thaw Testing results.

HEATER PAD

DiversiTech's Heater Pad is specifically designed for the pool and spa industry. Remember, the safest heater installation is with a pad made of concrete. The Heater Pad is concrete and contains NO COMBUSTIBLE MATERIAL. Limited shipping area. Please see item description for further details.

FEATURES & BENEFITS

The Heater Pad offers many advantages over solid concrete:

- Waffled or hollowed out bottom reduces weight by more than 50%
- Generous ribbing on bottom maintains strength
- Millions of microscopic air bubbles in the concrete mix lightens the pad and increases durability
- Textured, sandblasted surface promotes water drainage and prevents unit from sliding off
- Dual-reinforcement with steel wire and polymer fibers prevents breakage and adds strength and durability.

The Heater Pad weighs less than half of a solid concrete pad.

PAD SIZES AVAILABLE FOR 2" AND 3" ULTRALITE™, E-LITE®, AND CLADLITE®

ULTRALITE™ Lightweight Equipment Pads

UltraLite™ is a true concrete equipment pad at the weight of plastic (about 2.5 lbs. per square foot). UltraLite™ is strengthened by miles of fiber in each square foot of fiber-cement coating. This fiber allows the pad to flex instead of cracking or breaking. The textured surface prevents the condensing unit or portable generator from sliding, and allows water drainage, while the engineered encapsulated polystyrene (EPS) core prevents warping and provides a solid bottom to resist settling. UltraLite™ is unaffected by soil conditions, ultraviolet (UV) light, temperature extremes, and other weather conditions.

The pound (#) symbol denotes new pad sizes recently added to the product line.

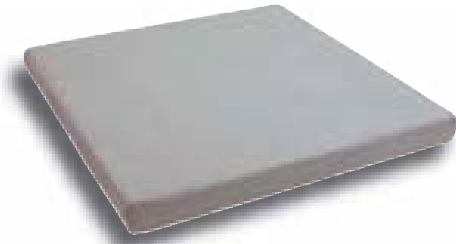

Literature available: www.diversitech.com/literature/lit-fly-uc.pdf

2" UltraLite™ Pads

The 2" thick UltraLite™ pad is the industry standard. Used across a wide variety of applications, unless a thicker pad (3") is required by the local building code.

ULTRALITE™ Earthquake Code Compliant Pads

Required nearly exclusively in Southern California, the UltraLite™ pad is available for compliance with strict attachment provisions detailed in earthquake prone local building codes.

UltraLite™ earthquake code compliant pads are only available for sale in regions where local codes mandate installation of pads with these particular characteristics. Currently these locales include most of Southern California, portions of Washington, and portions of Oregon.

The pound (#) symbol denotes new pad sizes recently added to the product line.

E-LITE® Plastic Equipment Pads

E-Lite's rugged design provides uniform and generous ribbing for optimum, self-leveling ground support without inserts. The result is a pad that is lightweight, but not too light. A subtle texture prevents unit slide and presents a classic appearance, which is enhanced by rounded edges and a concrete gray color. Each pad is molded with a size label and a symbol representing content of recycled material.

The pound (#) symbol denotes new pad sizes recently added to the product line.

2" E-Lite® Pads

The 2" thick E-Lite® pad is the choice for plastic pads, unless a thicker pad (3") is required by the local building code.

CLADLITE® Lightweight Equipment Pads

Concrete surface and superior performance at 20% the weight of conventional concrete pads. The cladding provides superior resistance to sun, moisture and freeze-thaw conditions; the engineered encapsulated polystyrene (EPS) core is virtually impervious to water, soil conditions, fungus and bacteria. CladLite® is further strengthened by continuous steel reinforcement throughout the cladding. CladLite® is code approved for installation throughout the U.S.

The pound (#) symbol denotes new pad sizes recently added to the product line.

2" CladLite® Pads

The 2" thick CladLite® pad is the choice for equipment pads, unless a thicker pad (3") is required by the local building code.

CLADLITE® Hurricane Pads

CladLite® Hurricane Pads

Designed specifically for the hurricane prone regions of Florida and the Gulf Coast, the CladLite® Hurricane pad is designed to meet stringent local code requirements for wind resistance. Heavier than a normal concrete pad, this pad provides sufficient weight to meet code. CladLite® Hurricane pads have been designed specifically to meet the intent of the Florida Building Code, Chapter 16, with respect to wind resistance. Method of attachment tested per ASCE 7. CladLite® Hurricane pads are suitable for all 130 mph and most 150 mph installations. For certain taller equipment, the CladLite® Hurricane T pad is needed. CladLite® Hurricane pads have been declared by the Florida Building Commission to be an acceptable alternative material to solid concrete slabs for use in specific applications from Tallahassee to Miami. Approval of the pad is within the discretion of the local building inspector. DCA02-DEC-183. Due to their extra weight, standard freight terms only apply for shipments to Florida. All other shipments are shipped FOB Conyers, Georgia.

The pound (#) symbol denotes new pad sizes recently added to the product line.

CladLite® Hurricane T Pads

The CladLite® Hurricane T pad is even heavier than the CladLite® Hurricane pad and is designed to meet the higher wind loads of taller equipment. The taller the piece of equipment mounted to the pad, the greater the wind load on the pad. CladLite® Hurricane T pads provide sufficient weight to meet code for these tall condensing units. CladLite® Hurricane equipment pads have been designed specifically to meet the intent of the Florida Building Code, Chapter 16, with respect to wind resistance. Method of attachment tested per ASCE 7. CladLite® Hurricane pads are suitable for all 130 mph and most 150 mph installations. For certain taller equipment, the CladLite® Hurricane T pad is needed. CladLite® Hurricane pads have been declared by the Florida Building Commission to be an acceptable alternative material to solid concrete slabs for use in specific applications from Tallahassee to Miami. Approval of the pad is within the discretion of the local building inspector. DCA02-DEC-183. Due to their extra weight, standard freight terms for CladLite® Hurricane pads only apply for shipments to Florida. All other shipments are shipped FOB Conyers, Georgia.

DiversiTech Condensate Pumps

Condensate Pumps – 22' Lift

Vertical type pumping unit, with high impact ABS tank, ABS motor and tank covers, volute and impeller. Thermally protected motor and stainless steel shaft. Equipped with snap action switch, 6' cord with 3-prong molded plug. Pump engages in 2.5" of water, disengages in 1.125" of water. Includes safety switch and a removable check valve with 3/8" discharge. Rubber feet dampen vibration which reduces noise. Four inlets provide greater installation versatility. Available in 115 V. UL and CSA approved.

Tubing Insulation

Tubing Insulation by Aerocel

Aerocel tubing insulation is a flexible, closed cell, lightweight EPDM based material. The closed cell structure provides many advantages over most rigid insulations, with outstanding ultraviolet and weather resistance.

Permanent Air Filters

DiversiTech Permanent Air Filters

Every filter makes trade-offs between letting too much air through (good for the unit) and trapping too much "stuff" (good for the homeowner). Where is the right balance? What is best for the homeowner and their unit? DiversiTech offers two permanent air filters. Choose the **Red Label Filter** for a good balance between ample air flow and ability to trap dust. Choose the **Blue Label Filter** if you feel greater air flow is needed, perhaps for older units.

LIMITED LIFETIME WARRANTY

DiversiTech hereby guarantees to the original purchaser that this DiversiTech permanent air filter will remain free of defects in materials and workmanship, when used in accordance with the recommended guidelines, for the life of the unit on which it is installed. Should this air filter be found to be defective, the remedies of the original purchaser are expressly limited to having DiversiTech replace the filter free of charge. To obtain the replacement filter, the original purchaser must return the defective filter to DiversiTech, 2175 East Park Drive, Conyers, GA 30013, with postage charges prepaid.

The warranty does not include the cost of installing the DiversiTech permanent air filter or any other costs, all of which shall be borne by the original purchaser. This warranty does not cover damage due to abuse, improper installation, installation in other than standard residential air conditioning and/or heating units, cleaning by high pressure hose or sprays or by use of highly caustic or corrosive cleaning agents.

DiversiTech makes no other warranty whatsoever and all other warranties of merchantability and fitness whether expressed or implied are limited to the life of the original air conditioning or heating unit on which the DiversiTech permanent air filter is installed.

Fan Centers

Fan Centers

Low voltage for one and two speed fan motors; auxiliary circuits in heating, cooling, or heating/cooling applications.

- DPDT Relay
- UL, CUR file E237660
- 24V coil voltage, power, and duty rated contacts
- Color-coded pre-stripped leads
- Mounts directly to 4" electrical box

Product sold in Standard Pack quantities only. *Also available in 5, 30, & 55 Gallon containers

Coil Guard

Ideally used in coastal areas, where salt air accelerates rust and decay. Highly recommended for use in all geographical areas to prolong the life of a unit. When applied properly, Coil Guard dries quickly and immediately resists salt spray, alcohol, acids, and soap solutions. Weather will not blacken it. Coil Guard has high dielectric properties and has no effect on heat transfer. Our blue tinted product is used to ensure complete coverage of coating.

Pro-Lube™ Mineral Oil

Specialty Chemical mineral oil (by Calumet) is a superior mineral naphthenic refrigeration oil designed to meet the operating requirements of modern home and commercial air conditioning and refrigeration compressors. These oils have a low pour point, low wax floc temperature and are chemically and thermally stable in the presence of refrigerants. OEM approved by Copeland, Carlyle, Trane, and other major compressor manufacturers. Always follow compressor manufacturer's oil viscosity recommendations. Mineral oil is specially recommended for lubrication of compressors containing ammonia, R-11, 12, 13, 22, 113, 114, 123, 500 and 502 refrigerants in residential, industrial and commercial service. DO NOT USE WITH HFC REFRIGERANTS SUCH AS R-134A.

Pro-Lube-Alk™ Alkylbenzene

Specialty Chemical alkylbenzene is recommended for refrigeration, air conditioning, and heat pump applications using HCFC and CFC refrigerants. Specialty Chemical's alkylbenzene is an excellent choice when retrofitting to the new refrigerants which are HCFC based such as R-401A (MP-39), R-401B (MP-66), R-402A (HP-80), R-402B (HP-81). OEM approved by Copeland and other compressor manufacturers.

Aerosols

Coil Cleaning Solvent

This high solvency formula quickly and easily liquefies dirt, grease, oil or other residue while the blasting nozzle powerfully separates the materials from the surface. This nonflammable and nonconductive formula is safe to use on or near live equipment.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
357-20	18 oz. Coil Cleaning Solvent	12	17.00 ▲

Coil Cleaning Foam Blast

A heavy duty foam detergent coil cleaner in the convenience of an aerosol can. Nonflammable and water based, it contains no chlorinated solvents. Blasting foam stream reaches into tight areas for maximum cleaning. The foaming alkaline detergent blend quickly liquefies dirt, grease, oil or other residue. The clinging foam is completely self rinsing on condensate producing coils.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
358-20	19 oz. Foaming Coil Cleaner	12	7.64 ▲

CBC II Contact Cleaner

A plastic safe, nonflammable electronic contact and circuit board cleaner. Dries fast, leaves no residue. No harsh fumes or odors.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
362-16	10 oz. Contact Cleaner	12	31.84

Heavy Duty Adhesive Spray

This wide web spray adhesive is ideal for both temporary or permanent bonding. Waterproof, transparent and non-staining. Use for the toughest adhesive applications with leather, cardboard, most plastics, polyethylene sheeting and insulation in HVAC applications. Cleans with mineral spirits. Not for use on vinyl.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
315-20	12 oz. Adhesive Spray	12	10.96

"Pan-Kote" Heavy Duty Drain Pan Patch

A super durable rubberized coating used to fill-in and patch HVAC drain pans. Seals out rust and corrosion. Stays flexible in variable weather conditions.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
641-14	14 oz. Pan Kote	12	18.76

"Sweat Free" Pipe Insulation Spray

Sweat Free is an aerosol spray on insulation specifically developed for cold water pipes, refrigeration and air conditioning lines. Stops sweating and dripping problems. Dries to a clean, white, flexible and water resistant coating. Adheres to galvanized, black iron, steel, brass, copper and PVC piping.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
770-15	15 oz. Sweat Free Pipe Insulation	12	18.28

Wasp & Hornet Killer

Kills wasps, hornets and yellow jackets. Very fast acting when insects are hit directly. Allow approximately 24 hours for those that were not directly hit. This container delivers a 20 foot jet blast to knock down the insects and allow for the user to remain at a safe distance.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
436-20	Wasp & Hornet Spray	12	18.56

Wasp & Hornet Killer by ENFORCER

Enforcer's Wasp & Hornet Killer shoots a 20 foot jet blast for instant knockdown of wasps, hornets, and yellow jackets. Enforcer's Wasp & Yellow Jacket Foam is a 20 foot blast of blanketing foam that plugs yellow jacket holes and clings to wasp and hornet nests, preventing their escape.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
8-WH16	16 oz. Wasp & Hornet Killer	12	14.08
8-FWH16	16 oz. Wasp & Yellow Jacket Foam	12	12.72

Sure Burn™ – Concentrated Fuel Oil Treatment

A state-of-the-art fuel oil treatment designed to insure oil burner ignition even in the most extreme weather conditions. Sure Burn acts as a water dispersant and promotes cleaner, more efficient combustion. Also inhibits sludge formation and combats fuel tank corrosion.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
HP-SB-16	Concentrated Heating Fuel Treatment—16 oz.	12	12.80

Spill Kill™ Powder – Fuel Spill Deodorant and Absorbent

A one-step liquid absorbent and deodorant with a convenient shaker top. Spill Kill is multi-functional. It absorbs and deodorizes fuel oil, as well as other liquid spills. The unique granular formula soaks up liquids and entraps odors much faster than dusty powders. The quick absorbing action minimizes the slip hazards associated with liquid spills.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
HP-SKDP-20	Granular Fuel Oil Deodorant and Absorbent—20 oz.	12	14.60

Spill Kill™ Liquid – Fuel Spill Deodorant Spray

Neutralizes noxious fuel oil odors while imparting a pleasant residual fragrance. Using the trigger spray applicator, spray directly on the spill and mist into the air as a space deodorant. The safe, nonflammable formula lends itself to other deodorizing applications where noxious odors are a problem.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
HP-SKDS-16	Fuel Spill Deodorant Spray—16 oz.	12	17.80

Hot Seat™ – High Temperature Furnace Cement

A high quality, fiber reinforced refractory cement formulated to withstand temperatures exceeding 2000°F without cracking. Superior bonding properties make it effective on masonry and metal surfaces. Fast drying, ready-to-use formula seals cracks and flues, and resets firebrick in furnaces and chimneys. Freeze protected to 0°F.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
HP-HS-16	Furnace Cement—16 fluid oz. Tub	12	17.16

Soot Kill™ – Catalytic Soot Remover

Ready-to-use nonflammable, noncorrosive catalytic soot cleaner. Fast, efficient cleaning of the combustion chamber. The catalytic cleaning action dramatically reduces time consuming vacuuming of the burner chamber. Soot Kill's residual action slows soot accumulation and assures long term heater efficiency.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
HP-SK-16	Catalytic Soot Remover Spray—16 oz.	12	16.60 ▲

Magic Soot Stick™ – Catalyzed Soot Destroyer

A one-shot fuel oil combustion chamber treatment. Noncorrosive formula eliminates soot deposits which increases burner efficiency. The 1" diameter tube easily fits through combustion chamber peep holes. Also reduces soot build up in fireplaces, wood and coal burning stoves and furnaces, helping prevent chimney fires.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
HP-MS-03	Catalyzed Soot Destroyer—3 oz. Tube	36	5.08 ▲

Leather Work Gloves

Versatile leather work gloves ideal for many industrial jobs. These leather work gloves offer: wing thumb pattern, continuous pull patch, seamless full leather index finger, leather knuckle strap, leather finger tips, full jersey lined palm and thumb with elastic gather on back. Generously sized for a good working fit.

Snips

540-6716S

540-6716L

Aviation Snips by **MINI-TOOL**

Moly alloy tool steel blade is hot drop-forged and scientifically heat-treated to provide a strong, longer lasting cutting edge. Durable serrated blades are designed to grip the metal for cutting ease. The patent pending spring on these snips is guaranteed to last for the life of the tool. Will cut 18 gauge cold-rolled steel.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
540-6716S	Aviation Snip – Cuts Straight – Yellow Handle	6	38.16 ▲
540-6716L	Aviation Snip – Cuts Left – Red Handle	6	38.16 ▲

Cushion Clamps

Cushion clamps are an industry standard, universal clamp that mounts to standard strut. The clamps are steel with electro-dichromate finish to resist corrosion. The lock nut features a nylon insert to assure a positive lock. The polymeric grommet withstands temperatures from -25°C to 125°C and resists the effects of most oils, chemicals, and industrial cleaning compounds. Available in 14 sizes from 1/4" to 4-1/8".

A/C Pull-out Disconnect Switches with GFI Receptacle by SQUARE D

- The Square D combination AC Disconnect and GFI Receptacle will help you to save time and material when wiring to NEC 210.63 requirements. This all-in-one unit provides the AC disconnect and GFI receptacle in one NEMA 3R enclosure, eliminating the need for a separate box and weatherproof receptacle cover.
- Weatherproof “while-in-use” cover swings out of the way for maximum accessibility and provides a weatherproof cover for the receptacle per the requirements of NEC 406.8
 - 20A GFI Receptacle is conveniently mounted to the trim for easy access to terminations
 - Convenient combination knockout provisions (1/2, 3/4, 1”) on side, back and bottom enclosure walls.
 - Mounting slot for pre-hanging during installation and receptacle is factory-wired to ground for faster installation.

All-purpose Clear Cement for ABS, PVC and CPVC Pipe and Fittings

Heavy-bodied clear cement recommended for use on ABS, PVC, and CPVC pipe and fittings up to 12" in diameter. Flows freely and provides a thick layer of cement on the pipe. Apply at temperatures 40° to 90°F.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
530-30818	Clear Cement – 4 oz.	24	6.88 ▲
530-30821	Clear Cement – 8 oz.	24	11.00 ▲
530-30834	Clear Cement – 16 oz.	24	20.44 ▲

PVC Gray Cement for High Efficiency Furnaces, Vent and Make-Up Air

Medium-bodied gray colored cement for use on Sch. 40 conduit, drain waste, and vent pipe. Flows freely and covers with a thicker layer than regular PVC. Can be applied at temperatures 40° to 100°F.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
530-30883	Gray Cement – 4 oz.	24	7.12 ▲
530-30884	Gray Cement – 8 oz.	24	10.36 ▲
530-30885	Gray Cement – 16 oz.	24	18.00 ▲

NSF and UPC listed. Exceeds ASTM D-2564.

Purple Primer for PVC Pipe and Fittings (Black Label)

Recommended for all PVC and CPVC installations – all sizes/schedules. Purple tinted primer formulated to remove surface dirt and grease as well as soften the pipe surface to allow for a fast, secure and permanent solvent weld. For use in areas where codes call for primer verification.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
530-30755	Purple Primer – 4 oz.	24	6.96 ▲
530-30756	Purple Primer – 8 oz.	24	10.08 ▲
530-30757	Purple Primer – 16 oz.	24	19.56 ▲

NSF and UPC listed. Exceeds ASTM F-656.

Heavy Duty PVC Cement

Heavy bodied clear cement recommended for use on PVC pipe and fittings up to 12" in diameter for Sch. 40 and Sch. 80 potable water pressure pipe, gas, conduit, drain waste and vent pipe. Exceeds ASTM D-2564.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH

7-4500	Acrylic Latex Caulk – White 10.1 oz. Cartridge	12	4.28 ▲
7-4400	Acrylic Latex Caulk – Clear 10.1 oz. Cartridge	12	5.96 ▲

Foam Products, Sealants, Adhesives

Foam Sealant – One Component

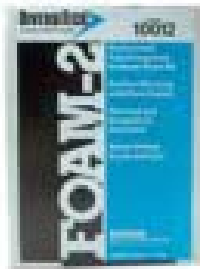

One component closed-cell expanding polyurethane foam sealant for lineal caulking applications. Air-moisture cure. Tack free in 20 minutes; fully cured in 12 hours. Paintable. Use for insulating and sealing around windows, doors, pipes, ducts and vents. Non-toxic when cured. Paint to protect from UV exposure. "R" value 4.7 (1" thickness). Foam contains fire retarding chemical and is U.L. Listed but not rated as a firestop product. Environmental concerns have led us to replace CFC's and HCFC's with hydrocarbon material in our one component foam products. See instructions on each product to ensure safe use and quality results.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
01714	Foam 12 oz. can – Yields 275' (3/8" bead)	12	14.56 ▲
01724	Foam 20 oz. can – Yields 460' (3/8" bead)	12	28.32 ▲

Foam Sealant – Two Component

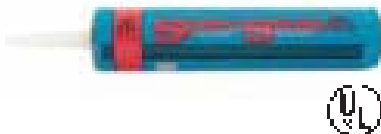

Two component closed-cell expanding polyurethane foam sealant for cavity filling, surface coating and insulation applications. Rapid chemical cure (Component A and Component B). Tack free in 2 minutes, fully cured in 20 minutes. Use for insulation repairs in refrigerated enclosures. Spray coat and insulate tanks, pipes, tubs and panels. Non-toxic when cured. Paint to protect from UV exposure. "R" value 5 (1" thickness). Kits include dispensing nozzles, hose and flow control mechanism. Foam contains fire retarding chemicals and is U.L. Listed but is not rated as a firestop product.

Firestop Products for Class A Buildings

U.L. Classified. Code Approved. Seal penetrations of plumbing, refrigeration and AC lines, ducts, vents and electrical cable through fire-rated floors, walls and ceilings. Easy-to-use, non-shrinking, non-toxic and permanently flexible. Blocks fire, gas, smoke, air and water migration. Use ceramic fiber filler together with putty or caulk for thick penetrations. Technical bulletins available.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
16491	Firestop Caulk – Red – 10.3 fl. oz. cartridge	10	51.20 ▲

Geocel Caulking Sealant

Exceptional bonding and sealing caulk for interior and exterior applications involving seams, joints, ductwork, flashing and any similar use. Excellent adhesion to virtually any surface (metals, fiberglass, wood, concrete, brick and most plastics) even if moisture is present. Resealable, paintable, flexible. Will not crack, chip or peel. Specially formulated for the HVACR industry. "Brush Grade" Geocel is a thinner viscosity co-polymer sealant which may be applied with a brush to form a flexible, waterproof seal/coating for roofs, walls, ducts, drain pans and other related applications.

Pro-Air Industrial Grade Spray Adhesive

A clear, pressure sensitive aerosol adhesive with exceptional tack and shear strength characteristics. An excellent choice for most permanent adhesive applications: duct liner and wrap, sheet aluminum, fiberglass insulation board, and much more. The aerosol package offers a specially designed web spray pattern for even, controlled distribution. Flammability meets aerosol flame extension test requirements. Coverage is approximately 90-100 square feet per pound.

Terminals, Connectors

Term Lok Compressor Repair Kit

Finally, a product that simplifies the repair of burned or damaged spade terminals when reconnecting or replacing a compressor. Fits both non-burned and burned terminals. Connects to the compressor via precision brass cylinders that fit over the terminals and connect with stainless steel set screws. Wires are permanently attached. Standard factory 600V, 65 strand machine wire. Easy to install and guaranteed for the life of the compressor.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH

TLC-3-10	3 Wire, 10 Gauge Connection Kit	1	74.68 ▲
TLC-3-12	3 Wire, 12 Gauge Connection	1	69.40 ▲

Replacement Compressor Leads

Extreme heat within compressors typically causes failure of wiring insulation. This can cause corrosion to the inner strands of copper within the wire used for compressor hook-up. This reduces the power flow to the compressor causing the unit to overheat and can prevent the compressor from starting. A MINIMUM of 12" of wire must be removed. The DiversiTech Replacement Compressor Leads are ideal for replacing this corroded wiring. 24" leads also available for replacing wire all the way to the contactor and capacitor.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/PACK
CC33	Compressor Leads – 12" w/Butt	3	15.80
CC33-18	Compressor Leads – 18" w/Butt	3	19.80
CC33-24	Compressor Leads – 24" w/Ring	3	22.00

Multi Color Test Leads

Easy to use multi-colored test leads. 5 colors (white, red, black, yellow, green) with 2 connections each for easy testing on the job. Wire is 18 gauge, 18" long.

Refrigerant Charging

Insta-Charge

Faster, safer and more economical method for charging LIQUID refrigerant through the low pressure side of an air conditioning or refrigeration system, without damaging the compressor. Insta-Charge's unique internal restrictor reduces liquid flow to a level below the capacity of the compressor. Converts liquid refrigerant to a saturated vapor for fast entry. Insta-Charge connects directly to the refrigerant can or cylinder valve. Adds liquid tracing dye faster. Eliminates heating of refrigerant cylinder. Made of light weight aluminum. Sold at a fraction of the cost of other fast charging devices.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
RC-1	Insta-Charge	1	15.80

Oil Transfer System by Gauge-Pro

A quick and easy way to change refrigerant oil with no spillage or mess. Unique hand pump creates a powerful vacuum for the transfer of oil to or from the compressor crankcase at a faster rate. Oil transfers back and forth between the compressor and waste oil tank by creating a vacuum. Oil never touches the pump, thus preventing cross contamination. Pump, durable waste oil container and all hoses are included.

Refrigerant Recovery Products

Refrigerant Recovery Cylinders

DOT Classified for recovery, recycling, service and reclaim. Liquid and vapor valves ("Y" valve or separate valve configurations) are installed in all cylinders. Painted yellow/gray per ARI guidelines. Float switches have 3-pin Brad Harrison connectors.

CATALOG NO.	DESCRIPTION	DOT CLASS	3/4" NPT PLUG	FLOAT SWITCH	WATER CAP.	TARE WT.	PRICE/EACH
02033	30 lb.	4BA400	YES	NO	26.2 lbs.	17 lbs.	
02035	30 lb.	4BA400	NO	YES	26.2 lbs.	17 lbs.	
02053	50 lb.	4BA400	YES	NO	47.7 lbs.	28 lbs.	CALL
02055	50 lb.	4BA400	NO	YES	47.7 lbs.	28 lbs.	FOR
02100	100 lb.	4BW400	YES	NO	123 lbs.	48 lbs.	QUOTE
02255	250 lb.	4BW260	YES	NO	239 lbs.	85 lbs.	

Caution: Never overfill cylinders. Maximum refrigerant capacity is limited to 80% of the water capacity of the cylinder in lbs. (see table above). DOT requires cylinders to be retested every five years. Some recovery equipment uses weight scales to cut off refrigerant fill at 80% of capacity. Be sure cylinder tare weight is correct for this type of equipment.

DOT Classification Example: 4BA400: 400 psi working pressure; 800 psi test pressure (double the working pressure); 1,600 psi minimum burst pressure (double the test pressure). Pressure relief/safety valve is set to release at between 75-100% of the test pressure. For example, in the 4BA400 tanks which have a 800 psi test pressure, the relief valve opens at between 600 psi and 800 psi.

DiversiTech Refrigerant ID Labels

These 3" x 4" self-adhesive vinyl labels use a high-tack acrylic adhesive and UV cured screen printing. Color coded to conform to refrigerant labeling convention. Each label indicates the type of refrigerant (eg. R-11), the chemical name (eg. Trichloromonofluoromethane) and the UN No. (eg. UN 1078). Avoid costly mistakes by properly identifying the type of refrigerant contained in recovery cylinders and air conditioning and refrigeration equipment. Custom labels available.

“MAC” – The Ultimate in Line Piercing Valves

Install valve. Connect charging hose. Service. That's all there is to it! MAC features uniport: 1 connection for piercing and servicing. Sealed with refrigerant resistant “O” rings. Needle automatically back seats after servicing, leaving line free of restriction. Connect to tubing with 2 socket-head screws. (Hex wrench is included with each valve.) Needle depressor is inserted into head of needle. Wing cap is turned down easily by hand until line is pierced. Wing cap is removed and system may be serviced with any charging hose with built-in depressor. When hose is removed, spring loaded needle back-seats forming a leak proof seal. Needle depressor is discarded and wing cap forms extra precautionary seal.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
QTM-1	“Mac” 1/4”, 5/16”, 3/8” O.D. Tube Size	36	5.64
QTM-2	“Mac” 1/2”, 5/8” O.D. Tube Size	36	6.12
QTM-3	“Mac” 3/16”, 1/4” O.D. Tube Size	36	7.00

Quick-Tap

Similar to Tap-A-Line but features a valve core in the 1/4” male port. Simply pierce the line and back seat the needle. Flow starts when depressor type charging hose is connected. Flow shuts off automatically when hose is removed. If valve core is not desired, it may be removed. Connect hose, pierce line and back seat needle. This method offers full unrestricted flow. Valve core can be removed or changed at any time without loss of refrigerant if needle is front seated.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
QT-1	Quick-Tap 1/4”, 5/16”, 3/8” O.D. Tube Size	1	7.60
QT-2	Quick-Tap 1/2”, 5/8” O.D. Tube Size	1	8.20

Quick-Tap-2

Identical to Quick-Tap except that a nylon handle replaces the hex wrench. Phillips-head screws are used.

Universal Spun Copper Driers

Manufactured with the latest generation Grace Davison MS-594 Molecular Sieves compatible with more than 20 different types of refrigerants, including R-134A. They can be used in all hermetic and open refrigeration systems using CFC, HCFC and HFC gases and mixes such as commercial and domestic refrigerators, freezers and air conditioners ranging from 1/8 to 2.0 HP. Hermetically sealed with extended ends.

Liquid Line Driers

High moisture and acid capacity. Maximum filtration capacity. Exceptional compatibility with new polyester oils. Compatible with all existing and new refrigerants and blends including 134a, 401A/B, 402A/B, 404A, 407A/B/C, 410A, 502, 507A. Spring loaded, molecular sieve and activated alumina. Solid coppersweat fittings. Powder paint exterior coating surpasses 500 hour ASTM salt spray test and resists corrosion. Eliminates concern of additive stripping. 032 MF liquid line dryer features 1/4" SAE steel female flare outlet. 500 psig design pressure (600 psig available on all models designed for R-410A applications with XH11 desiccant. Extended copper ends available (select models). Various inlet/outlet fitting combinations available U.L. listed SA3441, CSA certified LR46423.

Suction Line Driers

Parker Hannifin developed the solid-core clean-up dryer for use in a system suction line. The compact design incorporates a large outside diameter shell, which results in a shorter lay-in length, and a larger core, which provides a greater filtration area for maximum operating efficiency.

The core material has controlled porosity which effectively removes and holds a maximum amount of contaminants with a minimum of pressure drop. It collects and holds inorganic acids and other harmful contaminants from a motor burnout. This binding process protects the core from acid decomposition.

Access valves on both the inlet and outlet sides make it easy to measure pressure accurately. Occasionally, enough contaminant matter may collect in the filter core to cause a slight pressure drop. The access valves on the SLD make it easy to determine if a pressure drop exists and to measure the amount of the drop.

The original DSLD, solid core, activated alumina suction line filter dryer. High acid capacity. Low pressure drop – exceptionally high flow rates. Designed for system clean-up. 500 hours salt spray protection. Shortest system cut-out lengths allow installation in tight areas. Two access valves simplify pressure drop measurement. Flare or solid copper sweat fittings. UL listed – File No. SA3441. CSA listed LR46423.

Bi Flow Driers

The "DBF" Series is designed specifically for heat pump or reverse cycle application. External check valves are not required since they are incorporated within the filter dryer shell. The core design filters out contaminant particles down to 25 microns. 100% copper sweat or nickel plated flare fittings. Desiccant core provides reliable and effective, removal of solid contaminants, acid and moisture. Model BF-163S-XF features XH11 desiccant design for R-410A applications. Provides three times the filtration as the standard bi-flow. Core is cushioned in fiber gaskets to protect core and to insure trouble-free performance. Powder paint exterior coating surpasses 500 hour ASTM salt spray test and resists corrosion. U.L. listed file SA3441, CSA certified LR46423.

Shells

Parker replacement filter cores and dryer shells are designed to provide flexibility over a wide range of applications. All models are designed for use in both the liquid and suction line of refrigeration or air conditioning systems. In single or multiple-core applications, cores may be loaded individually for ease of installation in tight spots. A wide range of fittings for suction-line applications and interchangeable laying-in dimensions with other manufactured models increase product versatility.

Ball Valves

Parker's RB01 Ball Valves are used as service valves in split air conditioning and heat-pump systems or in commercial refrigeration applications. The valves isolate sections of a system for servicing and provide a means for charging refrigerant into a unit.

CATALOG NO.	VIRGINIA KMP	CONNECTION	PRICE/EACH

Sight Glasses

Parker's PSG Sight Glass and Moisture indicator provides a quick visual diagnosis of refrigerant and moisture levels within a system. The sight glass indicates if the system has the proper refrigerant level, a restricted dryer or excessive pressure-drop. The moisture indicator recognizes moisture within the system. Provides early warning that a potential failure exists resulting in corrosion, chemical damage, restricted flow, or even compressor failure. Etch-resistant glass with a simple color comparison provides easy viewing and quick diagnostics. Flare models feature forged brass body and fittings for corrosion resistance. Sweat models feature copper fittings to permit solder installation without disassembly. Leak-proof design is compact and short in length to easily fit within a unit and provide accuracy in performance. U.L. listed.

Suction Accumulators

The Parker "U" tube accumulator design is a result of extensive laboratory testing. It takes into account all of the requirements essential for heat pump applications, including safe holding volume (relative to the system's total charge), protected flow control for positive refrigerant and oil return, and minimum pressure drop across the accumulator. Standard accumulator models are designed for application on heat pump and refrigeration systems from 1/4 through 12 tons. Liquid refrigerant holding requirements of suction accumulator may vary by application. Because of the diversity in heat pump systems, accumulator capacity selection should be determined by actual testing.

VD-4A

VD-24

Control Disconnect

Ideal for use with controls in centrifugal systems. Use to quickly disconnect or connect all controls without refrigerant loss or system pumpdown. Installs easily before any high or low pressure control, oil failure control, water regulating valve. Model VD-4A adapts to any Access Fitting with a 1/4" male flare connection, enabling a service engineer to build up a system in the field. All brass; metal-to-metal seat; will not leak.

Adjustable Delay on Break Timer

Adjusts from 6 seconds to 8 minutes. Spin-proof knob. Works with 24, 120 or 240 VAC control circuits. Supports up to 1.5 Amps. Two wire hookup for easy installation. Solid state with quick disconnect terminals. Mounts with one self-tapping screw. Conformal coated circuitry protects against moisture and shock. UR recognized for USA and Canada. Works with anticipator type thermostats.

HOW IT WORKS: Immediately upon application of power, the Delay on Break timer enables circuit operation. Once power is interrupted, the circuit opens for the time set on the dial. After the time period elapses, the circuit closes, allowing the protected motor or compressor to start. For typical HVAC applications, the operation of the timer is transparent and will go unnoticed.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/PACK
ADB-1	Adjustable Delay on Break	1	15.60
ADB-2	Adjustable Delay on Break w/Terminal Leads	1	15.60

Adjustable Delay on Make Timer

Ideal for random starting of multiple units. Adjusts from 6 seconds to 8 minutes. Spin proof knob. Works with 24, 120 or 240 VAC control circuits. Supports up to 1.5 Amps. Two wire hookup for easy installation. Solid state with quick-disconnect terminals. Mounts with one self-tapping screw. Conformal coated circuitry protects against moisture and shock. UR recognized for US and Canada. Works with anticipator type thermostats.

HOW IT WORKS: These timers delay circuit closure upon application of power. Only after the set time period elapses and power remains ON will the circuit close, allowing the protected motor or compressor to start. For typical HVAC installations, timers are adjusted to random times to prevent power circuit overloads. They are sometimes called random start timers.

ADM-2	Adjustable Delay on Make w/Terminal Leads	1	15.60

Digital Three Phase Line Voltage Monitor

Offers continuous protection against voltage anomalies which can damage compressors, motors and other sensitive electrically operated devices.

PROTECTION: Loss of Phase, Phase Reversal, Voltage Imbalance, Low Voltage, High Voltage

DISPLAY: Large custom LCD display indicates all operating conditions at a glance. Three large sets of digits provide easy system troubleshooting.

VOLTMETER: Three independent voltmeters read both line and contactor load (backside) voltages.

MONITORED VOLTAGE: 160 to 600 Volts 50-60 Hz.

POWER SUPPLY: Power for the WPC-500 is automatically derived from any active phase. System operation is not dependent on the control voltage or a specific phase for power.

CONTROL VOLTAGE: 19-277 VAC. Anticipator load is provided for operation with 24 volt electronic and mechanical thermostats.

OPERATING VOLTAGE SET POINT: 175 to 650 VAC. Digitally adjustable in one volt increments.

VOLTAGE TRIP POINT: Adjustable in 1% increments between 6% and 18% of selected operating voltage. Restart voltage set point (hysteresis) fixed at cutout voltage + 3%.

VOLTAGE SYMMETRY: Adjustable imbalance trip point from 2% to 25% of selected operating voltage.

RESPONSE TIMES:

Phase Loss/Reversal:	100 mS max.
Imbalance:	Adjustable Response Timer
Over or Under Voltage:	Adjustable Response Timer

LOCKOUT DELAY TIMER: Fully adjustable 0 to 720 Seconds (0 to 12 minutes). Digital display shows remaining time and user set points.

SEQUENTIAL START TIMER: 0 to 30 seconds in one second increments.

RESPONSE TIMER: 0.1 to 20 Seconds. Digital display shows remaining time and user set points.

MEMORY: Up to 25 past fault conditions are stored for later retrieval and analysis. The faults may be displayed or cleared by the front panel buttons.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/PACK
DTP-3	Digital 3-Phase Motor Protector	1	280.00

Digital Single Phase Line Voltage Monitor

Automatic voltage monitor and control system. Continuously measures incoming line voltage, allowing detection of any voltage outside the tolerances that you set. If these limits are exceeded, the response timer begins counting. You may also set response time – a short time for a quick response or a long time to avoid nuisance tripping. If the voltage remains outside the tolerance after the time has elapsed, the DSP-1 will turn off its output relay and protect your device. While output is off, an additional delay timer activates to avoid rapid restarts.

FEATURES:

- Digital voltmeter displays instantaneous line voltage
- Automatic voltage tester adjusts from 90 to 300 volts
- Adjustable response timer (0.1 to 10 sec.) prevents nuisance tripping
- Adjustable delay timer (1 to 720 sec.) prevents rapid restarts
- Digital display makes for easy viewing and operation

SPECIFICATIONS:

- Voltmeter: 70 to 325 Volts
- Voltage Set Point: 90 to 300 Volts
- Tolerance Limits: 6 to 18%
- Response Timer: 0.1 to 10 seconds
- Delay Timer: 1 to 720 seconds
- Output Relay: 10 Amps, 250 VAC resistive, single-pole/double-throw
- Control Input: 18 to 250 VAC with anticipator load for 24 volt thermostats

Wet Switch Flood Detector

A solid state control designed to help prevent flooding, damage to carpets, walls, furniture, ceilings, etc. Now has a built-in test and reset button for easier installation. Turns system off when detecting moisture due to condensate or drain leaks. One or two drops will cause Wet Switch to turn off a unit, alerting a serviceman to a moisture problem. A lit LED indicates the Wet Switch is activated and has turned the unit off. Re-set simply by drying the absorbent pad with a paper towel and pressing the reset switch. Connects to 24 VAC. More than one unit may be connected to a system. 2 amp contact rating. Simple 3 wire installation. Sales displays available. U.S. Patent No. 4,787,212.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/PACK
WS-1	Wet Switch Flood Detector	1	101.20

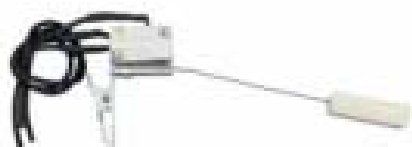

Safety Overflow Switch

The DiversiTech SOS™ (Safety Overflow Switch) is an electronic device that snaps on to existing 3/4" PVC condensate drain lines. The SOS senses when the drain line fills with water then locks out the compressor contactor. No moving parts to foul up. Easy 2-wire connection to 24 volt contactor circuits. Bright yellow LED shows trouble. Cycle power to reset. Size 2 X 1.5 inches

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/PACK

U.L. Listed; CSA Certified. 5 Amps @ 125 VAC; 3 Amps @ 250 VAC.

007 Control Checker

A lifetime tool for monitoring and checking safety controls and operating controls. One unit for all voltages 24-460 VAC or DC without switching dials or meters. Compact, 4 oz, reliable. Saves troubleshooting. For normally closed controls, 007 connects in parallel with safety control. When the safety control opens in response to a problem in the system, 007 red LED turns on and remains on until reset manually. With intermittent problem, the LED remains on indicating the control is open. For operating controls, 007 verifies the status of all types indicating if there is power to the holding coil, the NC contact is open or closed, the thermostat contacts are open or closed, there is power to the contactor or starting holding coil, the overloads are open or closed, or there is a bad connection either on control or power side. NOTE: May use with lockout relays. Features battery check and reset switch. Includes 9-volt battery. 007 may be used over and over. U.S. Pat. No. 4,092,625.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/PACK
TC-007	007 Control Checker	1	53.00

Tattle-Tale Control Monitor

Identifies open controls in seconds. A single use monitoring device for determining which, safety control has opened in response to a malfunction. Saves wasted hours tracing a safety control shutdown, even if intermittent. A quick, inexpensive way to visually spot where the problem is. Simply install in parallel with each safety control. When a control opens, the red indicator flag pops up. You will know immediately which area of the system is experiencing problems. Disposable, safe, simple to use, and pocket sized. Monitors safety controls, fuses, overload relays, motor protectors, freeze controls, limit controls, safety switches, fusible links, or steam control. CAUTION: Not to be used with lockout relays, use TC-007.

Hard Start Kits

Torque Plus – DST-5 300% Boost, DST-6 500% Boost

Totally solid state, our DST-5 is just right for all permanent split capacitor (PSC) compressors from 1/2 to 10 H.P. It can be used on units that operate on 120 through 288 Volts. The DST-6 offers a larger capacitor for severely hard-to-start compressors. The DST-6 can be used on all PSC single phase compressors from 1-1/2 to 10 H.P. A unique combination of relay and safety timer. The capacitor is automatically disconnected in 0.5 seconds if the compressor fails to start.

Multi-Head Fin-Tool

Conveniently straightens and cleans condenser and evaporator fins. Each nylon head slides into the master handle and tightens in place. The heads are designed to fit units with fin spacing of 4 – 24 fins per inch. Each head is engraved with its own size and is color coded for fast identification. The heads are angled so that when inserted in the handle, the hand is a safe distance from the sharp fins. Fin-Tool heads may also be reversed in the handle, so that combing with an upward stroke (recommended method) may be done easily, with proper leverage. The master handle rests comfortably in a man-size grip, is rigid and long lasting.

Expando Adjustable Condenser Tube Cleaner

Fast, thorough, economical way to remove mineral scale and sludge from inside water-cooled condenser tubes. Saves time-consuming brushing or flushing. Expando attaches to a threaded rod which fits into an Expando handle or your electric drill. With a reaming action, the tough stainless steel blades scrape everywhere inside the tube, providing a free, unrestricted flow. Virtually clogproof, this tool may be expanded or reduced in diameter to fit scale deposits – not just the tube. Note: Use EC-810 couplings for connecting additional rods.

POP-103 Gallo Gun Countertop Display

A great way to display the Gallo Gun along with its cartridges. Fits 6 Gallo Guns and 12 packs of SWOOSH CO₂ cartridges per display. Ask about it today!*

**Buy the product and get a FREE countertop display!*

Use the Gallo Gun to

CLEAR THE LINE

with a SWOOSH!

SMALL & LIGHTWEIGHT The Gallo Gun packs cleaning power into a small, lightweight package which prevents the need for carrying heavy air or nitrogen tanks.

AIR POWER The Gallo Gun uses CO₂, eliminating the mess caused by water back flushing drain lines.

ENVIRONMENTALLY FRIENDLY The Gallo Gun uses carbon dioxide (CO₂), a common component of air and is totally safe for use in the environment. It's a great alternative to the environmentally unfriendly practice of using refrigerant to clean the drain line.

FLEXIBLE HOSE ASSEMBLY The flexible hose assembly enables you to maneuver through cabinets, coils, and hard to reach drains.

ADAPTER KIT This kit is available to allow for use on oil burner lines and tighter areas with a 90° fitting.

DIVERSITECH 

Straps

Hanging Strap

Strong, versatile, durable, easy way to secure loose gear safely. Tie down ladders, tubing, cylinders or almost anything in seconds. Cannot snap back. Strong, durable 1" polypropylene webbing. Reinforced grommet lets you hang it up, tie it up, hook it up or attach it permanently. Spring loaded adjustable buckle. Easy to get firm tension with no slipping. Make an endless length by connecting 2 or more together.

PRO-TREAT Tablets and FLOW PLUS Treatments

PRO-TREAT 151 Premium Condensate Drain Pan Treatment

PRO-TREAT 151 premium tablets penetrate and help remove sludge that can plug drain pans and drain lines and foul humidifier pans. PRO-TREAT 151 tablets kill odors associated with slime and sludge, minimizing maintenance problems from overflow and water damage caused by fouled pans, plugged traps, or drain lines. PRO-TREAT 151 tablets are 100% soluble, easy to use, and do not form any deposits in the pan or drain line. Approved for use in computer rooms. Dosage: 1 tablet per 3 tons each month. PRO-TREAT 153 contains 6 PT-151 tablets per card. PT-151 and PT-153 are EPA registered.

PRO-TREAT 200 Condensate Drain Pan Treatment

PRO-TREAT 200 tablets are effective in eliminating condensate drain pan problems that result in odors, overflows and subsequent water damage. PRO-TREAT 200's long-lasting formula not only cleans sludge accumulations, but also assures season-long trouble-free performance eliminating costly nuisance call-backs. PRO-TREAT 200 is biodegradable, non-corrosive and non-toxic. Approved for use in computer rooms. Dosage: 3 tablets per 3 tons each month.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
PT-200	PRO-TREAT 200 – 200 Tablets per Jar	12	34.12
PT-217	PRO-TREAT 200 – 280 Tablets per Jar – 1.7 Gram Tablet	12	30.00

PRO-TREAT 236 Stick Up Pack

The Stick Up Pack contains 36 PRO-TREAT 200 tablets and conveniently attaches to the air handler with Velcro strips (included). Also, a calendar is included for recording dosage dates. This package is extremely useful for both service technicians and equipment owners. Approved for use in computer rooms. Dosage: 3 tablets per 3 tons each month.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
PT-236	PRO-TREAT 236 Stick Up Pack – 36 Tablets	6	16.00

PRO-TREAT 156 Humidifier Treatment

Effective in preventing odors and scale buildup in humidifier reservoirs. Regular treatment minimizes maintenance problems while extending the equipment life. Approved for use in computer rooms. Dosage: 2-4 tablets per 4-6 weeks. Treatment is dependent on water hardness.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
PT-156	PRO-TREAT 156 for Humidifiers – 4 Tablets per Pack	24	6.88

PRO-TREAT 154 Evaporative Air Cooler Cleaner and Deodorizer

Regular use of PRO-TREAT 154 tablets extends equipment life, helps maintain unit efficiency (saving energy) and prevents musty swamp odors from forming. Approved for computer room use. Dosage is determined from the cubic feet per minute of air flow. Typically treatment is one tablet per 5300 CFM.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
PT-154	PRO-TREAT 154 – 1 Tablet per Pack	12	8.56
PT-154B	PRO-TREAT 154 – 12 Tablets per Jar	12	99.84

PRO-TREAT 350 Condensate Drain Pan Treatment

Place a PRO-TREAT 350 tablet in a condensate drain pan and condensed moisture will slowly dissolve the tablet, thinly coating the pan surface to give prolonged cleaning action on sludge. Dosage: one or two tablets are recommended in each pan per month. For industrial use only!

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
PT-350	PRO-TREAT 350 – 100 tablets per jar	24	18.00

FLOW PLUS™ Condensate Drain Pan Treatment

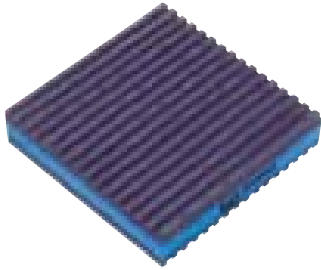

- **Unique** – Polymer formula maintains condensate flow and prevents drain pan overflow.
- **100% Active** – No residue. No waste. Nonclogging
- **Effective** – Long term condensate activated release.
- **Environmentally Safe** – Nontoxic and noncorrosive.
- **Economical** – Sizes to meet all tonnage requirements.

Anti-Vibration Pads

E.V.A. Anti-Vibration Pad

The latest generation in vibration dampening technology – the new EVA pad. The most effective vibration dampening pad available on the market today. We tested the EVA Pad against other pads at four different vibration settings. In the most severe vibration extremes, the new EVA Pad outperforms cork and rubber by a margin of greater than 3:1, and outperforms our competitor's "waffle" pad by a margin of greater than 8:1! This enhanced performance is due to the special composite foam center. The composite foam is much more structurally sound than cork. It is not affected by oils or chemicals that can sometimes break down cork, and is much more effective at vibration dampening than solid rubber. In essence, the EVA Pad gives you the best of both worlds, at a very competitive price. Designed to withstand 50 pounds per square inch.

Iso-Cube Anti-Vibration Pad

Natural rubber pads, designed to reduce vibration and noise emanating from refrigeration and air conditioning equipment. The circular design in each pad offers a suction cup effect, which eliminates the need to bolt the pads down. A standard 18" pad is divided into eighty-one 2" segments, each of which may be cut or torn to provide smaller pads. These 50 durometer pads will withstand a load of 180 psi with greater resiliency.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH

Lubricants

Pull-A-Spout Oiler

All purpose oiler with a 14" telescoping spout. Zooms out for long shots, and in for short shots, even zooms around corners. Squeeze bottle action. Perfect lubricant for general industrial use. Contains four ounces of finest quality carbon free, rust and oxidation inhibited lubricating oil. Plastic container won't short out around electrical connections. No leakage.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
CO-1	Pull-A-Spout Oiler (4 oz.)	12 (Display)	2.80 ▲

Rust Breaker

Quickly loosens rusted bolts, screws, shafts, piping, and all types of "Frozen" connections and assemblies. The answer for rusty or corroded fastenings on cars, trucks, trailers, tractors, farm machinery, appliances, washing machines, plumbing, water pumps, fishing reels, power tools, gardening equipment, and hundreds of other mechanisms. Packaged in a handy telescoping spout applicator.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
CR-1	Rust Breaker (4 oz.)	12 (Display)	2.80 ▲

All Purpose Lubricant

Compared to all the others, TKX by LPS is the best all-purpose lubricant. "Wicks" faster and penetrates quickly due to lower surface tension. Formulated to deliver greater clinging power and better protection. Safest to use on operating equipment. High 175°F flashpoint. Exclusive "invertavalue" permits spraying in all positions – even upside down.

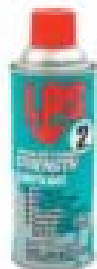

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
LPS-40	11 oz. All Purpose Lubricant	12	16.00 ▲

Greaseless Lubricant

Thin film lubrication. Water displacer dries out wet electrical/electronic components. Contains no chlorinated solvents. Ideal for delicate mechanisms. Fast penetrating and no oily mess. Safe on rubber, paint, plastic, fabrics. Won't attract dust or dirt.

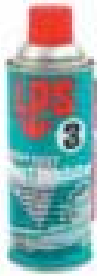

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
LPS-1	11 oz. Greaseless Lubricant	12	20.76 ▲
LPS-1G	Gallon Greaseless Lubricant	1	84.48 ▲

Industrial Strength Lubricant

Leaves light oily coating. Quick release for seized mechanisms. Reduces wear caused by friction corrosion. Contains no chlorinated solvents. Safe on rubber, paint, plastic, fabrics.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
LPS-2	11 oz. Industrial Strength Lubricant	12	22.36 ▲
LPS-2G	Gallon Industrial Strength Lubricant	1	95.04 ▲

Heavy Duty Rust Inhibitor

Forms heavy waxy coating. Effective corrosion inhibition under severe conditions and corrosive environments indoors and outdoors up to two years. Safe on rubber, paint, plastics, fabric. Excellent anti-seize compound. Superior chain lubricant.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
LPS-3	11 oz. Heavy Duty Rust Inhibitor	12	27.24 ▲
LPS-3G	Gallon Heavy Duty Rust Inhibitor	1	131.48 ▲

Cold Galvanize

95% zinc rich coating inhibits corrosion up to three years. Works as a primer or finish coat to repair damaged or worn hot-dipped galvanized coatings. Leaves a matte gray finish. Works on rusted surfaces and all metals. Won't crack, chalk, or peel.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
LPS-5	16 oz. Cold Galvanize	12	26.24 ▲

BrightCoat Cold Galvanize

Prevents rust and corrosion on all metals. Produces a shiny zinc coating that dries to the touch in 15 to 30 minutes. Heat resistant. Will not yellow, chalk, crack or peel. Meets ASTM A780-93A.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
LPS-5BC	13 oz. BrightCoat Cold Galvanize	12	28.44 ▲

Heavy Duty Silicone Lubricant

Dry film lubricant. Water based and ideal for surfaces where petroleum based products are unsuitable. Contains no chlorinated solvents and is safe on metal, plastic, rubber, vinyl, leather and wood. Non-stain, anti-static, and approved by USDA for use in federally inspected meat and poultry plants. Approved for use in areas with incidental food contact.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
LPS-6	13 oz. Heavy Duty Silicone Lubricant	12	19.88 ▲

LST Penetrant

Specially formulated with low surface tension for fast penetrating action. Displaces moisture. Powerful foaming action provides complete surface coverage. Flash point of 175°F.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
LPS-8	11 oz. LST Penetrant	12	18.16 ▲

White Lithium w/Teflon

Pure white lubricant with Teflon additives. Provides maximum lubrication. Rust and oxidation inhibitors protect metal. Heat and water resistant. Rapidly forms into a pure white grease that won't melt or wash away.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
LPS-9	10 oz. White Lithium Lubricant	12	22.36 ▲

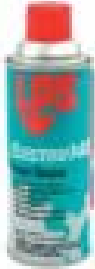

Thermaplex Multi-Purpose Grease

Specifically developed to outperform conventional bearing greases and extend relubrication periods, reducing maintenance requirements and grease use. Blue colored paste with excellent load carrying properties. Temperature range -22°F to 350°F.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
LPS-13	14.1 oz. Thermaplex Bearing Grease	30	14.48 ▲

Contact Cleaners

Electro 140° Contact Cleaner

Ideal for electrical/electronic parts. Flash point above 140°F. No rinsing or residue. Contains no CFCs or 1,1,1. Superior wetting and penetrating action.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
LPS-4-140	11 oz. Electro 140° Contact Cleaner	12	28.96 ▲

CFC-Free Electro Contact Cleaner

A fast penetrating, quick evaporating, non-residue cleaner for precision parts. Ideal for electrical and electronic fine parts. Penetrates to remove light greases, oil, dirt and other contaminants. Contains no CFCs, NCFs, or 1,1,1 trichlorethane. No rinsing or wiping necessary. Will not stain fabric. Good solvency, low odor, low toxicity. Non conductive, safe on metals and plastics.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
LPS-4CF	11 oz. CFC-Free Electro Contact Cleaner	12	35.44 ▲

NoFlash NU Precision Contact Cleaner

New patent-pending non-flammable formula. Fast evaporating, quick penetrating, no residue formula. Safe on most surfaces. Replaces HCFC 141b or other chlorinated solvents. No flash point.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
LPS-4NU	15 oz. No-Flash NU Contact Cleaner	12	60.72 ▲

NoSpark Electrical Cleaner

New patent-pending non-flammable formula. Fast evaporating, quick penetrating, no residue formula that is safe on most surfaces, including plastics. Non-conductive. Replaces HCFC 141n or other HCFC cleaners.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
LPS-4NS	14 oz. NoSpark Electrical Cleaner	12	100.88 ▲

Degreasers

HDX Heavy Duty Degreaser

Quickly removes oil, grease, and dirt. Fast acting, non-flammable. Very fast evaporation. Does not contain CFCs. Does not require rinsing or wiping. Not flammable or conductive.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
LPS-7X	19 oz. HDX Heavy Duty Degreaser	12	28.96 ▲

PreSolve

Quickly removes oil, grease, and dirt. Natural based solvent. Moderate evaporation. Does not contain CFCs. Does not require rinsing or wiping. Flashpoint 104°. Not conductive.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
LPS-7PS	15 oz. PreSolve	12	32.92 ▲

ZeroTri

Quickly removes oil, grease, and dirt. Evaporates completely and very rapidly. Does not contain CFCs. Does not require rinsing or wiping. Flashpoint 0°F. Not conductive.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
LPS-7Z	15 oz. ZeroTri	12	33.28 ▲

Precision Clean

Quickly removes oil, grease, and dirt. Biodegradable. Super industrial strength. USDA approved, non-toxic. Slow evaporation. Does not contain CFCs. Does not require rinsing or wiping. Non flammable. Conductive. Now available in a foaming aerosol!

Rayovac is the Industrial Product Leader!

Rayovac is the leader in the industrial battery market and has been for years, with an estimated 50% share of the traditional industrial distribution channel. Rayovac introduced the top-selling industrial flashlight to the market, and set the quality standard by which all other industrial flashlights are measured today. Whether your customer is searching for a toolbox-tough flashlight or high-performance batteries, Rayovac offers a broad range of products to meet your needs.

Rayovac Industrial Maximum Alkaline Batteries—Contractor Packs

- Contractor preferred, clear, re-sealable package
- Greater battery per pack quantities command higher battery sales
- Displays much more readily than other competitive batteries
- In a HVAC test market, the Contractor Packs outsold the standard packs by a greater than 2 to 1 ratio!

Wagner Leak Finders

Pro-2000 Leak Finder

A fluorescent yellow leak detector in a non-clogging spray bottle. Reacts instantly to the smallest leak. This high viscosity liquid clings to the applied surface for instant detection, even in low light. Leaves no residue or film to interfere with brazing or soldering. The applicator is designed to shoot a controlled stream of liquid to the suspected area. Use with all refrigerants, oxygen, and compressed gases. Meets Mil spec. MIL-1-26567A.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
CL-2016	Pro-2000 Leak Finder – Pint	12	7.80
CL-2032	Pro-2000 Leak Finder – Quart	12	12.40
CL-2128	Pro-2000 Leak Finder – Gallon	4	38.00

Radiant Leak Finder

The radiant color of this viscous leak detector lets the user easily see even the slightest bubble. Withstands temperatures down to 0°F before freezing. Below zero, it forms a gel and becomes liquid again in only a few minutes of room temperature. Now available in a pull-a-spout bottle.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
CLR-4	4 fl. oz. Radiant Leak Finder	12	3.60
CLR-8	8 fl. oz. Radiant Leak Finder	12	6.60
CLR-64	1 gallon Radiant Leak Finder	4	44.00

Leak Finder with Brush-On Applicator

Formulated for refrigeration and air conditioning systems. Seeks and finds refrigerant and air leaks quickly and safely. Actually pinpoints the leak when applied to the suspected area. Leak-Finder has body and will never fail to bubble at even the slightest leak. Leak-Finder is non-toxic, will not stain and meets Mil Spec. MIL-L-25567A for oxygen and compressed gases. Ideal for automotive air conditioners where flame type detectors could be hazardous. Leak-Finder also makes the perfect companion to electronic leak detectors.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
CL-8	8 fl. oz. Leak Finder	12	6.40
CL-64	1 Gallon Leak Finder	1	38.00

Sealant, Epoxy, Glue

Wagner Adhesive Sealant

For refrigerant sealing. Eliminates fastener loosening, leakage, and corrosion. Cures between thread flanks to seal against leakage and prevents thread corrosion. Offers sealing with maximum solvent resistance to the action of refrigerant (11, 12 and 22), ammonia and sulfur dioxide. Withstands corrosive liquids used in metal finishings and process industries. Ideal sealant for refrigeration, A/C, and process equipment using corrosive chemicals.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
CAS-2712	Wagner Adhesive Sealant, 0.34 fl. oz.	10	19.80

Loctite® Thread Sealant with Teflon

General purpose sealant with the lubricity of Teflon for metal pipes. Won't shred like Teflon Tape. Allows easy disassembly. Resists common shop fluids. -60° to 400°F temp. resistance. Pressure resistance of 5000 PSI.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
7-80632	Loctite® Thread Sealant – 1/4 Pint Brush Can	12	13.80 ▲
7-80633	Loctite® Thread Sealant – 1 Pint Brush Can	12	35.40 ▲

DEP8001

DEP056

Fast Cure Epoxy

DEP056 contains 10 individually-wrapped, pre-measured packages. Each unique sealed package contains the exact A/B portion required for most small jobs. Easy peel-open containers press into shape to form handy mix-and-dispense cup. Re-closable cylinder contains: Ten 0.12 oz. mixer packs and mixing sticks. Epoxy is also available in 1 pound kits (DEP8001 and DEP8002).

EPA Registered

Authorized by USDA for use in Federally inspected meat and poultry plants

3 Easy Steps to Improved Indoor Air Quality

STEP 1: CLEAN

TRIPLE "D"™

Degreaser • Detergent • Deodorant

Clean the evaporator coil and condensate pan with TRIPLE "D"™, a USDA authorized non-foaming alkaline coil cleaner. Cleaning the dirt from the coil and pan not only improves equipment efficiency, but also removes an important source of contamination that can create slime and sludge in the drain pan and cause pan overflow.

STEP 2: DISINFECT

SANI C-N-D™

Coil and Drain Pan Disinfectant

Disinfect and deodorize the evaporator coil and drain pan with SANI C-N-D™, an EPA registered biocide, fungicide, viricide, and mildewstat. The broad spectrum biocide in SANI C-N-D™ assures control of many airborne pathogens that can be spread via contaminated air handling equipment.

STEP 3: MAINTAIN

FLOW-PLUS™

Condensate Pan Treatment

Place FLOW-PLUS™ in the condensate pan (refer to the sizing chart). FLOW-PLUS™ is a totally soluble long term polymer treatment that keeps the drain pan and condensate lines clean for a minimum of three months. This prevents pan overflow problems.

Indoor Air Quality

3-Step IAQ Demo Kit

DiversiTech presents 3 easy steps to improve indoor air quality. The first step is to clean the evaporator coil and condensate pan with our Triple "D"[™], a USDA authorized non-foaming alkaline coil cleaner. This removes contamination and improves equipment efficiency. Next, disinfect and deodorize the evaporator coil and drain pan with SANI C-N-D[™], an EPA registered biocide, fungicide, viricide, and mildewstat. Finally, place FLOW-PLUS[™] in the condensate pan in order to prevent pan overflow problems. FLOW-PLUS[™] will also help to maintain cleanliness for a minimum of three months. Try the 3-Step IAQ Demo Kit. Your evaporator coil and condensate pan will thank you.

Coil Cleaners

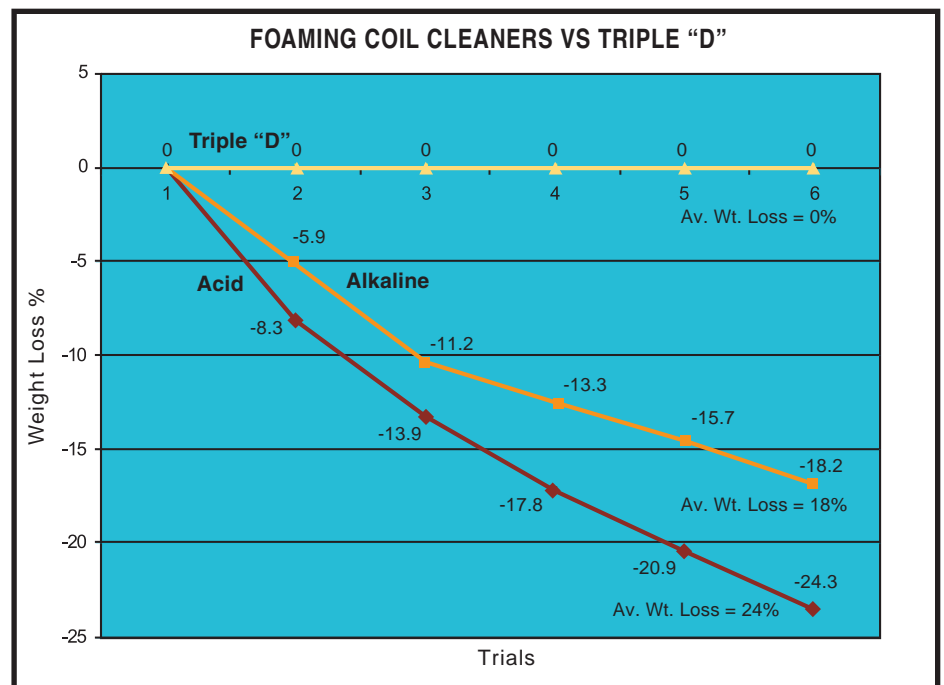

TRIPLE "D"[™] Premium Alkaline Coil Cleaner

- **Unique** – Triple action degreaser – detergent – deodorant. Nonfoaming condenser, evaporator and electronic air filter cleaner.
- **Economical and Effective** – A concentrated minimum 6-1 mix ratio provides full cleaning power at low use cost.
- **Nontoxic and Biodegradable** – Reduces workers' compensation and liability because it contains no hazardous acids.
USDA AUTHORIZED

CATALOG NO.	PACKAGE	STANDARD PACK	PRICE/EACH

SCM-707-55	55 Gallon Drum	1	1801.76 ▲

This chart shows the relative safety of Triple "D" when compared to typical acid and alkaline foaming coil cleaners. Through the course of 5 cleaning cycles, a typical coil cleaner may cause up to 25% of the cooling fin mass to be lost. With this loss of metal, heat transfer efficiency will be lost as well. Triple "D"'s inhibited formula, on the other hand, provides effective cleaning but does not attack the cooling fin metal, so heat transfer efficiency is preserved.

POWER-PLUS™ Alkaline Evaporator Coil Cleaner

- **Inhibited** – Will not attack aluminum or other soft metals when mixed as directed.
 - **Self Rinsing** – Saves cleaning time.
 - **Fragrance Free** – The product of choice in hypoallergenic situations.

Acid Test and Prevention

Acid Eliminator

Keeps acid away and is compatible with all refrigerants and oils. Acid Eliminator is designed to chemically neutralize and prevent acids that are formed in air conditioning and refrigeration systems due to refrigerant and refrigeration oil break down, moisture, and compressor burnout. Easy to use, no complicated charts. Works fast, circulates quickly, and leaves no solids or solid residuals. Will not harm system components. Can prevent system breakdown.

Oil Tap

Oil Tap is installed on a semi-hermetic compressor for the changing of oil and testing procedures. The internal pressure helps discharge the oil from the crankcase and acid tests can be made while the compressor is running. Allows the addition by vacuum or removal by pressure of oil while compressor is running. And, you can detect hazardous refrigerant pooling in the crankcase before start-up and control the removal using a compound gauge. Oil Tap can be permanently installed.

Refrigeration Oils

PRO-LUBE™ Mineral Oil

Specialty Chemical mineral oil (by Calumet) is a superior mineral naphthenic refrigeration oil designed to meet the operating requirements of modern residential and commercial air conditioning and refrigeration compressors. These oils have a low pour point, low wax floc temperature and are chemically and thermally stable in the presence of refrigerants. OEM approved by Copeland, Carlyle, Trane, and other major compressor manufacturers. Always follow compressor manufacturer's oil viscosity recommendations. Mineral oil is specially recommended for lubrication of compressors containing ammonia, R-11, 12, 13, 22, 113, 114, 123, 500 and 502 refrigerants in residential, industrial and commercial service. DO NOT USE WITH HFC REFRIGERANTS SUCH AS R-134A.

PRO-LUBE-ALK™ Alkylbenzene

Specialty Chemical alkylbenzene is recommended for refrigeration, air conditioning, and heat pump applications using HCFC and CFC refrigerants. Specialty Chemical's alkylbenzene is an excellent choice when retrofitting to the new refrigerants which are HCFC based such as R-401A (MP-39), R-401B (MP-66), R-402A (HP-80), R-402B (HP-81). OEM approved by Copeland and other compressor manufacturers.

Coil Treatments

Coil Guard

Ideally used in coastal areas, where salt air accelerates rust and decay. Highly recommended for use in all geographical areas to prolong the life of a unit. When applied properly, Coil Guard dries quickly and immediately resists salt spray, alcohol, acids, and soap solutions. Weather will not blacken it. Coil Guard has high dielectric properties and has no effect on heat transfer. Our blue tinted product is used to ensure complete coverage of coating.

Heat Transfer Products

A propylene glycol based heat transfer fluid designed to provide freeze and burst protection, excellent thermal conductance, protection against system corrosion and fouling, and long-term system stability in closed re-circulating water loops. ProTek is formulated with food-grade corrosion inhibitors.

ProTek™ Closed Loop Heat Transfer Fluid

ProTek for closed loop water recirculation systems is a blue liquid. Available in three concentrations – original ProTek-100™, ProTek-50™, and ProTek-Plus™. Each concentration may be further diluted to alter freeze and burst temperatures. Refer to the technical data sheet for specific information.

HP-SKDP-20	Granular Fuel Oil Deodorant and Absorbent – 20 oz.	12	14.60

SPILL KILL™ Liquid – Fuel Spill Deodorant Spray

Neutralizes noxious fuel oil odors while imparting a pleasant residual fragrance. Using the trigger spray applicator, spray directly on the spill and mist into the air as a space deodorant. The safe, nonflammable formula lends itself to other deodorizing applications where noxious odors are a problem.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
HP-SKDS-16	Fuel Spill Deodorant Spray – 16 oz.	12	17.80

HOT SEAT™ – High Temperature Furnace Cement

A high quality, fiber reinforced refractory cement formulated to withstand temperatures exceeding 2000°F without cracking. Superior bonding properties make it effective on masonry and metal surfaces. Fast drying, ready-to-use formula seals cracks and flues; resets firebrick in furnaces and chimneys. Freeze protected to 0°F.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
HP-HS-16	Furnace Cement – 16 oz. Tub	12	17.16
HP-HS-64	Furnace Cement – 64 oz. Tub	4	50.88
HP-HS-128	Furnace Cement – 128 oz. Tub	4	83.20

SOOT KILL™ – Catalytic Soot Remover

Ready-to-use nonflammable, noncorrosive catalytic soot cleaner. Fast, efficient cleaning of the combustion chamber. The catalytic cleaning action dramatically reduces time consuming vacuuming of the burner chamber. Soot Kill's residual action slows soot accumulation and assures long term heater efficiency.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
HP-SK-16	Catalytic Soot Remover Spray – 16 oz.	12	16.60 ▲

MAGIC SOOT STICK™ – Catalyzed Soot Destroyer

A one-shot fuel oil combustion chamber treatment. Noncorrosive formula eliminates soot deposits which increases burner efficiency. The 1" diameter tube easily fits through combustion chamber peep holes. Also reduces soot build up in fireplaces, wood and coal burning stoves and furnaces, helping prevent chimney fires.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
HP-MS-03	Catalyzed Soot Destroyer – 3 oz. Tube	36	5.08 ▲

Deodorizers and Degreasers

BLUE BLITZ™ New Concept Cleaner Deodorizer-Degreaser

- **Kills Odors** – Unique formula cleans as it deodorizes.
- **Fast Acting** – Cuts through tough grime and grease.
- **Easy To Use** – Cleans smudges and stains in 1 step.

"Sure-Stick" Heavy Duty Adhesive Spray

This wide web spray adhesive is ideal for both temporary or permanent bonding. Waterproof, transparent and non-staining. Use for the toughest adhesive applications with leather, cardboard, most plastics, polyethylene sheeting and insulation in HVAC applications. Cleans with mineral spirits. Not for use on vinyl.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
315-20	12 oz. Adhesive Spray	12	10.96 ▲

"Sting-Less" Wasp & Hornet Killer

Kills wasps, hornets and yellow jackets. Very fast acting when insects are hit directly. Allow approximately 24 hours for those that were not directly hit. This container delivers a 20 foot jet blast to knock down the insects and allow for the user to remain at a safe distance.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
436-20	Wasp & Hornet Spray	12	18.56 ▲

"Pan-Kote" Heavy Duty Drain Pan Patch

A super durable rubberized coating used to fill-in and patch HVAC drain pans. Seals out rust and corrosion. Stays flexible in variable weather conditions.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
641-14	14 oz. Pan Kote	12	18.76 ▲

"Sweat Free" Pipe Insulation Spray

Sweat Free is an aerosol spray on insulation specifically developed for cold water pipes, refrigeration and air conditioning lines. Stops sweating and dripping problems. Dries to a clean, white, flexible and water resistant coating. Adheres to galvanized, black iron, steel, brass, copper and PVC piping.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
770-15	15 oz. Sweat Free Pipe Insulation	12	18.28 ▲

SAF-N-KLEEN™ Aerosol Solvent Coil Cleaner

This high solvency formula quickly and easily dissolves dirt, grease, oil or other residue while the blasting nozzle powerfully separates the materials from the surface. This nonflammable and nonconductive formula is safe to use on or near live equipment.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
357-20	18 oz. Aerosol Solvent Coil Cleaner	12	17.00 ▲

Foam-Plus™ Aerosol Foaming Coil Cleaner

A heavy duty foam detergent coil cleaner in the convenience of an aerosol can. Nonflammable and water based, it contains no chlorinated solvents. Blasting foam stream reaches into tight areas for maximum cleaning. The foaming alkaline detergent blend quickly liquifies dirt, grease, oil or other residue. The clinging foam is completely self rinsing on condensate producing coils.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
358-20	19 oz. Aerosol Foaming Coil Cleaner	12	7.64 ▲

Oilers and Rust Breaker

Pull-A-Spout Oiler

All purpose oiler with a 14" telescoping spout. Zooms out for long shots, and in for short shots, even zooms around corners. Squeeze bottle action. Perfect lubricant for general industrial use. Contains four ounces of finest quality carbon free, rust and oxidation inhibited turbine grade lubricating oil. Plastic container won't short out around electrical connections. No leakage.

CATALOG NO.	DESCRIPTION	STANDARD PACK	PRICE/EACH
CO-1	Pull-A-Spout Oiler (4 oz.)	12 (Display)	2.80 ▲

Rust Breaker

Quickly loosens rusted bolts, screws, shafts, piping, and all types of "Frozen" connections and assemblies. The answer for rusty or corroded fastenings on cars, trucks, trailers, tractors, farm machinery, appliances, washing machines, plumbing, water pumps, fishing reels, power tools, gardening equipment, and hundreds of other mechanisms. Packaged in a handy telescoping spout applicator.

WTM1	Wire Tie Mounts, Adhesive Back	3	
OPTIONAL: PA25	450 Assorted Terminals in Plastic Box	2	
NO CHARGE ITEMS:	78 Peg Hooks; Sign; Re-Order Tags		

U.S. General Terms and Conditions

General Policy

WE ARE COMMITTED TO DO WHAT IT TAKES TO DELIVER WORLD CLASS SERVICE AND PRODUCTS

All items not ordered in multiples of standard package quantities will automatically be increased to the next standard package quantity. All purchase orders submitted by our customers are assumed as accepting our general terms and conditions as stated herein, any conflicting terms stated on the purchase order cannot supersede our terms.

Order Discrepancies:

All order discrepancies must be reported to us within 5 working days from the date of delivery. Any discrepancies reported after this period cannot be honored.

Terms:

1% 15 days. Net 30 days. Late charges of 1-1/2% per month will be charged following the due date of the invoice. Prices subject to change without notice.

Minimum Order:

\$100.00 minimum order on all original orders. \$15.00 Broken Pallet Charge will be added for each pad size less than the standard pallet quantities.

Freight Policy

CONTINENTAL U.S.

All orders in excess of \$1,500 will ship prepaid. This policy applies to any combination of DiversiTech and Wagner products.

Pick Up Allowance

3% of net invoice, 24-hour notice requested. Order must qualify for prepaid freight to receive pick up allowance.

Lost or Damaged Freight

Although we take special care to insure the safe arrival of your merchandise, our responsibility for damages cease when the customer accepts the shipment. To protect your interest, we suggest that you thoroughly inspect all items before accepting delivery. If your order was damaged in shipment or contains a shortage, report the loss or damage AT ONCE to DiversiTech. Any claims for lost or damaged freight must be noted on the Bill of Lading at the time of delivery. If damage is present, you MUST hold the original carton and merchandise for credit by your Sales Representative – otherwise, no claim can be honored.

Returns:

No merchandise will be accepted for return without prior authorization. Call our Customer Service Department to request permission to return goods. Instructions on method of return will be given to you at that time. All returns are subject to a 25% restocking charge.

Warranty Disclaimer

DiversiTech has made a diligent effort to illustrate and describe the products in this catalog accurately; however, such illustrations and descriptions are for the sole purpose of identification, and do not express or imply a warranty that the products are merchantable or fit for a particular purpose, or that the products will necessarily conform to the illustrations or descriptions. DiversiTech assumes no liability for typographical or photographic errors.

DiversiTech reserves the right to make changes in design, material or finish in an effort to improve our products without special notification. If necessary, DiversiTech reserves the right to replace any product shown in catalog with another comparable product without special notification.

DiversiTech's ULTRALITE™, CLADLITE®, and E-LITE® Limited Lifetime Warranty

To the original owner of the ULTRALITE™, CLADLITE®, or E-LITE® equipment base, DiversiTech warrants the base to be free of defects in materials and workmanship for the life of the equipment under which it is installed so long as the installing homeowner lives there. All defective merchandise must be returned to the factory, transportation prepaid, and if the same is found to be defective, it will be repaired or replaced free of charge, F.O.B. factory. This warranty does not cover replacement labor cost, or any cost claim incident to the defect, replacement, or reinstallation, nor field repair expenses. This warranty gives you specific legal rights and you may also have other rights which vary from state to state. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation of exclusion may not apply to you.

Exclusions and Limitations

DiversiTech's ULTRALITE™, CLADLITE®, and E-LITE® equipment pads are designed and manufactured to be used as bases for light, ground supported equipment such as air conditioning condensers, swimming pool filters and heat pumps. Use of ULTRALITE™, CLADLITE®, and E-LITE® pads for purposes other than those listed above or improper installation of ULTRALITE™, CLADLITE®, and E-LITE® pads may result in pad failure. DiversiTech Corporation disclaims any liability due to such misuse or improper installation. If you have questions concerning the proper installation or use of DiversiTech's ULTRALITE™, CLADLITE®, and E-LITE® equipment pads, you should contact our Customer Service Department at (800)995-2222.

Alphabetical Index

3-Step IAQ Demo Kit	145	Cable, Armored	61	Copper Fittings	76-78
Abrasive Cloth	140	Cable, BX	61	Cords, Extension	52
AC Cable	61	Capacitors	20-23	Core Removal Tool	104
AC Mounting Brackets	17	Capillary Tubing	106	Core Storer	104
AC Whips	59-60	Carton Sealing Tape	66	Cores	108
Access Fittings	110-111	Cartridge Fuses	57	Cork Tape	65
Accumulators, Suction	109	Caulk	81	Countertop Display for HVAC/R	160
Acid Brushes	135	Caulk Guns	80	Cover, Toggle Switch	121
Acid Eliminator	151	CBC II Contact Cleaner	33	Covers, Shoe	36
Acid Test Kit	151	Cement, PVC	79-80	Covers, Switch	54
Adhesive Sealant	139	Centers, Fan	20	CPVC Fittings	73
Adhesive Spray	33, 82, 158	Channellock Products	44	Crimping Tool	43-44
Aeroflex Tubing Insulation	18	Chart, Chemical Comparison	142	Cushion Clamps	51
Aerosols	33	Chemicals	141	Cushioned Pillow Blocks	115
Air Filter Products	149	Chemicals, Coil Cleaning	31	Cutter, Ergonomic Wire	97
Air Filters	19	Chip Brushes	135	Cutter, Pipe and Tube	44-45
Air Handler Base	28	Circuit Breakers	55	Cylinders, Refrigerant Recovery	102
Air Handler Block	16	Circuit Tester	101	Definite Purpose Contactors	24-25
Airflow Meter	100	Cladlite Pads	3, 4, 12-15	Degreasers	130
Alkylbenzene Oil	31, 152	Clamps for Strut	51	Dektite Flashings	63
Allen Wrenches	118-119	Clamps, Cushion	51	Delay on Break Timer	112
Alligator Clips	92	Clamps, Dryer Vent	30	Delay on Make Timer	112
Aluminum Foil Tape	66	Clamps, Hose	93	Detecto	142, 150
Anchor Kit	42	Clamps, Nylon Cable	96	Digital Thermostats	48-50
Anti Vibration Pads	126	Clean Out Tee	72	Disconnect Switch with GFI Receptacle	56
Armored Cable	61	Cleaner, CBC II Contact	33	Disconnect Switch, Low Profile	56
Auto Fuses	58	Cleaning Pads	140	Disconnect Switches	56-57
Auxillary Contacts	25	Clear Vinyl Tubing	69	Disconnects, Insulated	92
AV Pads	126	Clipboards	46	Disconnects, Non-Insulated	93
Aviation Snips	42	Cloth, Blaze Barrier	40	Disconnects, Special	87
Bags, Tool	47	CO2 Cartridges	122	Dispenser, Carton Tape	66
Ball Valve, Gas	28	Coil Cleaners	31-32, 147	Displays, Point of Purchase	122, 133, 160-163
Ball Valves	109	Coil Guard	31, 154	Diversigum Sealing Compound	80
Barrells of DiversiWhips	59	Coil Gun	38	Diversiwhips	59-60
Base, Air Handler	28	Coil-Kleen	147	DP Contactors	24-25
Batteries	132-133	Cold Galvanize Spray	128	Drain Pan Fittings	17
Bearings	115	Compression Sprayers	38	Drain Pan Patch	33, 158
Big Helper Pipe Cutters	45	Compressor Heaters	115	Drain Pan Tablets	124-125, 148-149
Black Pipe Fittings	74	Compressor Leads	86	Drain Pans	17
Black Pipe Nipples	75	Compressor Motors	116	Driers, Bi Flow	108
Black Steel Nipple Assortment Packs	75	Compressor Repair Kit, Term Lok	86	Driers, Copper	106-108
Blade Fuses	58	Compressor Terminals	92	Driers, Liquid Line	107
Blades, Saw	45	Compressor Tote	118	Driers, Parker	106-108
Blaze Barrier Cloth	40	Concrete Pads	1-9, 12-16	Driers, Steel	107-108
Blocks	16	Condensate Drain Cleaner, Gallo Gun	122	Driers, Suction Line	107
Blocks, Air Handler	16	Condensate Drain Pans	17	Drive Straps, EMT	61

DIVERSITECH.

A FULL LINE MANUFACTURER.

DiversiTech Corporation is North America's largest manufacturer of equipment pads and a leading manufacturer and supplier of components and related products for the heating, ventilating, air conditioning, and refrigeration (HVACR) industry.

Headquartered in the Atlanta, GA metropolitan area, DiversiTech manufactures a suite of products, which includes a wide range of mechanical, electrical, chemical, and structural parts for HVACR systems. The company maintains manufacturing and distribution facilities in key U.S. locations and in the Far East. DiversiTech has enjoyed a continued history of successful growth and has acquired industry-recognized brand names including Wagner Manufacturing and Specialty Chemical.
