3" and 4" Heavy Duty
Saw Blades

RTR-2
Corkscrew
Retrieving Tool

RP-2
Root Ripper™

CG ClogChopper®
1", 1-1/2", 2",
2-1/2", 3" and 4"

**DUC
DHDSC**
3" and 4" Spider Cutter™

Model 88 Standard Cutter Set

G-SHD
Spear Head

G-2UC
2" U-Cutter

G-3HDSC
3" Heavy Duty Side Cutter

G-4RSB
4" Rotary Saw Blade

G-RTR-2
Retrieving Tool

CW
Coupling Wrench
(Fits both "G" and "L" connectors.)

G-HA
Hook Auger

G-3HDB
3" Heavy Duty Saw Blade

Model 88 Accessories

G-CA
Cutter Adapter
Converts all cutters above
for use with "G" connectors.

CC
Cable Carrier
Holds five 10-ft. sections.s.

WCC
Wheeled Cable Carrier
Holds five 10-ft. sections.s.

G-FSH
Flex-Spear
Good in 4" "P" traps.

G-CL
Cutter Leader
Adds flexibility to front of Proflex cables.

CF
Cable Feeding Tool (Standard with Model 88)
Helps work cable around tight bends.

Connectors

QF – “Quick- Fix”
Just screw on tightly and it won't come off. For 1/2", 9/16", 5/8" and 3/4" cables.

RS – Repair Sleeve
In 3/8", 1/2", 5/8", and 3/4" sizes.(weld on)

FC-O – Female Connectors
3/8", 1/2", 5/8", and 3/4" sizes. (weld on)

MC-O – Male Connectors
3/8", 1/2", 5/8", and 3/4" sizes. (weld on)

Snake Oil™
It protects your cables better than common lubricants. Its special rust inhibitor cuts through moisture and replaces it with a rust-resistant coating. In addition, Snake-Oil gives your equipment a fresh, clean smell. Available in quarts and gallons.

Screw-in Connectors and Splicers
5/8" and 3/4"
(Wire rope center must be removed with 1/8" drill bit rotating at very slow speed.)

Cables

Sectional Cables

Quick coupling “Cable Saver” sectional cables for the Model 88. Choose from two coupling styles. Both snap together in a second and are taken apart quickly with a spanner wrench or even a screwdriver. With the more recently developed “G” connector, no torque is put on the locking pin when running in reverse, making it a very durable coupling

Heavy Duty Proflex™ Sections

Same 1-1/4" outer spring as the Proflex but with a 5/8" heavy duty inner spring to provide more torque for difficult stoppages and longer runs. Available in 10 foot sections with “G” or “L” connectors.

6 ft. x 7/8" Proflex™ Sections (Cat # 6L78)

For 2" to 4" drain lines up to 100 ft. long. It combines a 6 ft. x 7/8" outer cable with 7/16" Proflex inner spring giving you the flexibility to get through small lines with the strength to resist kinking. For use with the Model 88 using the 78L-CDC Drive Coupling or the 78L-AD Adapter. Available with “L” connector.

Flexichain™ Sections

1-1/4" outer spring wrapped around a chain center gives unmatched flexibility to get through tight traps and difficult bends, while providing maximum protection against losing broken cables in a line. Outer spring is right-hand wound for faster feeding. Available in 8 and 10 ft. lengths with “G” or “L” connectors.

Proflex™ Sections

Combination of 1-1/4" outer spring with 1/2" Proflex inner spring to better handle motor torque and have better “push” when working through tough stoppages. Outer spring is right-hand wound and inner spring is left-hand wound for greater strength and durability. Available in 4, 8 or 10 foot sections with “G” or “L” connectors.

Flexicore® Cable

Wire Rope Center Construction
Heavy-gauge wire coiled tightly around 49-strand aircraft-type wire rope and heat treated. Has unequalled strength and the right amount of flexibility. So tough it carries a one-year warranty against defect or breakage.

Flexicore Patent Nos.
2,244,735 and 2,849,870
