## SPECIFICATIONS

Oatey Light Angled Wall Bracket Kits include an in-wall bracket with stub-out clamps to support vertical piping and horizontal stub-outs within the wall. Designed to accommodate different stud spacing, the brackets are easy to install and feature four mounting points for added stability. Made of durable steel, these brackets feature a hole pattern that allows for adjustable stub-outs every 2 inches, plus or minus every 1/2 inch. The kits include 1 light angled wall bracket; 2 stub-out clamps with screw; and 2 PEX bends. The 90° PEX bends make it easy to create PEX stub-outs without kinking or bending the pipe; simply secure the bend to the wall bracket with included stub-out clamp and screw, then snap the PEX pipe into the bend.

## APPROVALS AND LISTINGS

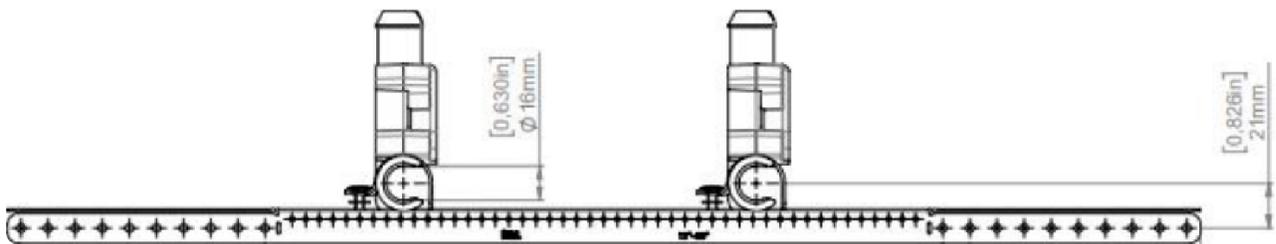

- IAPMO certified to file PS 42, compliant with UPC (Uniform Plumbing Code)

## MATERIAL

- Mild steel, Pre-galvanized finish
- PEX bend: Polypropylene

## FEATURES AND MATERIALS

- Hole pattern allows for adjustable stub-outs every 2 in. +/- 1/2 in.
