The Georgian Era™ Collection draws its inspiration from the period between the early 1700's and mid-1800's when four successive King Georges ruled England. Collectively they had a profound influence on architecture, art, fashion and the decorative arts. The hallmarks of the era are exquisite proportion and balance, formal detail and a bow to classic ancient Greek architecture. Authentically crafted in Great Britain, the faucets and accessories are made of solid brass by craftsmen who lay their hands on every steps of the process from casting through plating and finishing.
