

Shown with:  
Victoria + Albert® Rossendale™ sinks

### Available finishes

In unique contrast to other ROHL® collections emphasizing European or American style, the Eclissi™ Bath Collection is inspired by the phenomenon of the perfect alignment of two planetary objects during an eclipse – the collection's Italian namesake. While only aligned for an instant, the two spheres coexist beautifully in space the rest of the time. The infinite handle design with shapes of inner and outer circles provide a harmonious aesthetic and are offered in a variety of finish combinations. Unlike their celestial inspiration, these faucets are designed to shine in whatever space they make their own and are never obscured. Forged in Italy with unmatched quality and attention to detail, the Eclissi™ Collection is sure to make a design statement.

A DISTINCTIVE MEMBER OF THE HOUSE OF ROHL
