

APCO[®] MAG

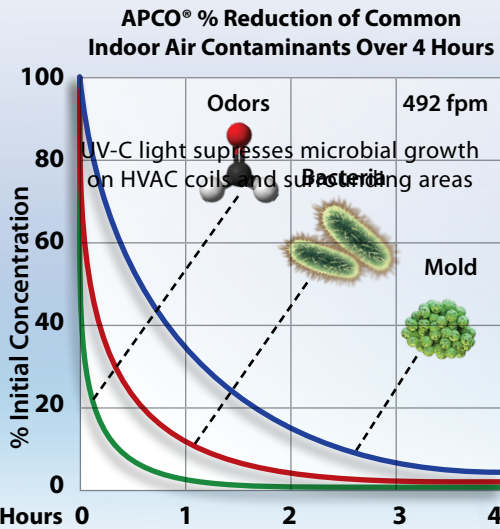

WHOLE-HOUSE AIR PURIFIER

APCO[®] With Magnetic Mounting

The Fresh-Aire UV APCO[®] Mag (magnetic mounting) system works with your central air system to reduce odors, toxic chemical vapors, germs and mold in your home. APCO[®] Mag uses the same technology as the standard APCO unit but uses a magnet mounting plate and a remote mounted power supply.

DETOX THE AIR IN YOUR HOME

Laboratory studies show that after just a few hours of operation APCO[®] significantly reduces the most common forms of indoor air pollution*

ENTER THE MATRIX

At the heart of APCO[®] is a matrix of activated carbon cells. These cells attract and holds odors and microbes which are then catalyzed by exposure to UV light. The cells are self-cleaning and the system is virtually maintenance-free.
