Product Information and Application Use

Uponor offers Lead-free Brass Compression Stop Valves for use in all plumbing applications. The Compression Straight Stop Valve enables a direct connection and the Compression Angle Stop Valve enables a 90-degree turn. For point-of-use shut-off at the fixture, both Compression Straight and Compression Angle Stop Valves connect ½" Uponor AquaPEX® tubing to ⅜" outside diameter (O.D.) risers.

Compression inserts and rings are included for the Lead-free Compression Angle and Lead-free Straight Stop Valves.
