Dryer Vent Boxes**

bimobject®

DBX Dryer Vent Boxes

The DBX Dryer Vent Boxes are a simple and essential solution to any laundry room. They provide storage space for the dryer flex hose allowing the dryer to be pushed back flush up against the wall. The DBX Dryer Vent Boxes also allow for the elimination of bends and kinks in the dryer flex exhaust hose. This improved airflow allows your dryer to work more efficiently, **saving on energy costs** and minimizes lint buildup, a well documented fire hazard.

DBX1017FR

Metal Dryer Vent Box

The DBX1017FR metal dryer box is a 22 gauge steel powder coated white fire rated dryer box. It is 10" wide by 17" tall. It comes in two sizes 4" (for a 2x4 wall) and 6" (for a 2x6 wall) No trim ring is needed with this dryer box and can be used for up OR down venting. Designed and tested to meet a 1 hour equal F&T fire rating requirement for through penetration fire rated system.

DBX1000M*

Metal Dryer Vent Box

The DBX1000M dryer vent box is powder coated white, 22 gauge steel, and comes in two sizes 4" (for a 2x4 wall) or 6" (for a 2x6 wall). This dryer vent box can also be used to down vent—simply turn the box upside down. It also can be used with an optional **snap on trim ring**.

DBX1000

Plastic Dryer Vent Box

The DBX1000 with snap on trim ring is made of high impact polystyrene. The DBX1000 comes in two sizes 4" (for a 2x4 wall) or 6" (for a 2x6 wall). This dryer vent box can also be used to down vent—simply turn the box upside down. **The snap on trim ring helps eliminate repairs and saves you time.**

DBX1424

Metal Dryer Vent Box with Optional Trim Ring

The DBX1424 metal dryer vent box with snap on trim ring is powder coated white, designed to work with pedestal and stackable dryers. The 14" wide by 24" tall, 22 gauge metal box and ring is designed to fit into a 2x6 framed wall. The DBX1424 has inside dimensions that are 3 1/2 inches taller than any other manufactured dryer vent box. Thereby, **accommodating all pedestal heights.** This dryer vent box is designed to be used with or without the trim ring.

DBX900

Dryer Vent Box For Manufactured Housing

The DBX900 was designed specifically for down venting the dryer vent in manufactured housing. The DBX900 dryer vent box is for 2x3 or 2x4 wall framing and does not require a trim ring.

* The DBX1000M-4 and DBX1017FR (2x4 & 2x6) both meet the 1 hour firewall requirement.
