PRODUCT SPECIFICATIONS

WALL MOUNT AIR HANDLER

FORM NO. 7AHW/4AHW-100 (01/2025)

CABINET & GENERAL FEATURES

- Flexible copper tubing for easy motor access.
- Low 30" height on models 18 - 37.
- Cabinets Constructed of heavy-gauge, corrosion-resistant galvanized steel.
- Refrigerant connections located on top left.
- 5/8" foil-faced insulation for excellent sweat resistance and quiet operation.
- (4) Screw removal for easy access to all electrical connections
- Dual condensate drain connections on left side, right side, and bottom of cabinet
- 1" duct flanges on all models simplify attachment to plenums.
- Air filter included with every air handler; no tools required for change out.
- Decorative wall panel (26"w x 38"h) or closet panel (24"w x 27"h) allow optimal airflow while reducing sound levels.
- Wall hanging bracket available as accessory for field installation.
- Approved for installation in manufactured housing and mobile homes.

COIL FEATURES

- AC or HP applications:
 - A1 models suitable for use with R-22 & R-410A
 - A2L models suitable for use with R-32 and R-454B and include factory installed Refrigerant Detection System (RDS).
- Proven copper tube and aluminum fin coil technology.
- Factory installed threaded expansion valve.
- Corrosion proof plastic drain pan

ELECTRICAL FEATURES

- High efficiency ECM motor or PSC motor available.
- Easy to service electric heat section.
- 5, 7.5, or 10 kW heat kits standard factory installed.
- Pull disconnect line voltage connection standard on all models.
- Patented condensate drain pan safety float switch available as accessory.
- Includes thermostat connections, time delay (1 sec. on, 45 sec. off), & motor uses control board; functions are built into the ECM motor).
