RO FAUCETS

JUST AS IMPORTANT AS THE QUALITY OF OUR FAUCETS' INTERNAL CONSTRUCTION IS OUR ABILITY TO CREATE FAUCETS THAT ENHANCE THE STYLES AND FUNCTION OF VIRTUALLY ANY KITCHEN DESIGN

FEATURES

- Certified to NSF/ANSI 61-9 & 372
- Designs complement today's upscale kitchens
- Many finishes to match any décor
- Lever-style handles
- Protective spout tip design prevents after-drip
- One gallon-per-minute flow
- Internal ceramic disk provides smooth operation
- High-reach neck, approximately 12" (350mm), swivels 360 °
- All mounting hardware is included
- Patented modular air gap (U.S. Patent #7,011,106)
- Retrofits most brands
- Two-year warranty

CONTEMPORARY

Clean lines and smooth surfaces without intricate details characterize Contemporary design. Your faucet is an accent item. Consider accenting with metal such as stainless steel, nickel, or chrome, for a sleek finish and clean look.

DESIGNER

Blending two disparate looks, contemporary and traditional, Designer RO faucets compliment a myriad of styles epitomizing "the modern classic." The line works virtually anywhere, offering blended forms in many inspiring finishes.

ULTRA CONTEMPORARY

The difference between Contemporary and Ultra Contemporary design is the blend of livable elements that create a sophisticated, fresh look and feel - becoming the modern embodiment of flow.

VINTAGE

Vintage RO faucets were created to perfectly accent today's kitchens with influences from the elegant glamour of the 1940s era. Standard finish is highly polished chrome. Also available in antique bronze, venetian bronze, satin nickel and brushed stainless.

Smooth operating ceramic disk element lever-style handle
