The heart of your home.

Welcome to the heart of our daily activities. Whether it is a quick breakfast, a family meal or a big birthday party - everything revolves around the sink - the central area when it comes to preparing, cooking and cleaning. Since 1925, we have been working with water in the kitchen, and in 1951 we launched our first stainless steel sink.

Today, having sold over 50 million sinks, we are one of the most successful manufacturers in the world. Customers in more than 100 countries count on our innovative products. However, we continue to expand our product-focus beyond the sink. We have been manufacturing high-quality faucets and sink accessories with tremendous success worldwide.

Our kitchen and laundry room design solutions are about our customers and providing them with innovative, functional and quality products.

The soul of the kitchen begins here.

The soul of the kitchen begins here. Embrace the beauty, function, quality and design. When it comes to buying a sink or faucet, you should never compromise. Choose quality. BLANCO has over 90 years of experience producing industry leading kitchen products. We offer our expertise in product development and design resulting in optimal solutions for your kitchen.

With a wide range of materials, installation methods and styles, BLANCO products provide plenty of freedom to accommodate your individual wishes and requirements. Learn to appreciate first class function, ease of care and excellent design. BLANCO - German quality, European design and made in Canada SILGRANIT® sinks.

Accessories: BLANCO TORRE™ Soap Dispensers, Classic Steel

BLANCO STEELART®- the ultimate expression of art and technology. Each and every STEELART sink is the direct, conscious result of blending artisanal techniques, advanced engineering and state-of-the-art technology. Combine these elements with premium construction and surgical grade stainless steel, and a masterpiece emerges.

Discover how our STEELART portfolio transforms something ordinary into something extraordinary. In small, exclusive production runs, each STEELART sink is superbly crafted with precision from a single panel of premium quality 304 series, 18-gauge stainless steel with 18/10 chrome-nickel content.

Made in Germany, all STEELART sinks are manufactured using superior design and engineering techniques.

The art of precision.

PRECISION™ Zero-Radius Corners

BLANCO PRECISION undermount sinks feature zero radius corners and angular bowl geometry.

RADIUS™ 10, 10 mm Radius Corners

Pioneered by BLANCO, 10 mm radius corners feature elegant slightly rounded 10 mm seams that are smooth to the touch.

'X' Pattern

Design features a striking 'X' pattern drain groove that helps to remove water quickly from the sink.

Durinox™ Surface **NEW**

Twice as strong as traditional stainless steel, Durinox is extremely resistant to scratches and has a velvety-matte look.

Satin Polish Finish

The original STEELART product portfolio is manufactured with a luxurious, satin polish finish. This results in a highly reflective, beautiful shine.

BLANCO PRECISION™ Durinox™ NEW

Exceptional strength. Elegance. Exclusivity.

Sink: BLANCO PRECISION™ Durinox™, Stainless Steel NEW
Faucet: BLANCO PANERA™, Stainless Steel NEW

Sink features

- Made in Germany
- Patented Durinox surface
- Rear-positioned drain hole for maximum usable bowl and cabinet storage
- Zero-radius corners
- Highly resistant to scratches; twice as hard in comparison to conventional stainless steel surfaces
- 3½" (90 mm) stainless steel strainer included
- Limited Lifetime Warranty

Inspired by technology used in the aerospace industry, Durinox is a unique material innovation that uses a process known as “shot peening” to produce a highly resilient stainless steel surface that is twice as hard as traditional stainless steel. This hardening process results in a velvety-matte surface with a uniform, homogeneous structure.

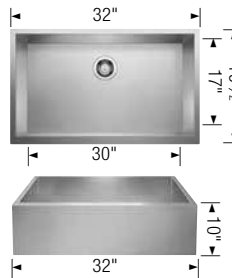

Durinox possesses the highest level of density for pure uncoated stainless steel and is highly resistant to scratches and fingerprints in comparison to conventional stainless steel surfaces. The PRECISION apron front is the first sink model in the BLANCO portfolio to be offered with this exclusive, patented Durinox surface technology.

The Durinox™ production process

Shot peening is a hardening process which entails using millions of tiny stainless steel balls to impact both sides of a sheet of stainless steel at a speed of 300 km/hr. This surface treatment is followed by an extremely precise restoration process that returns the stainless steel sheet back to a level state, resulting in a resilient surface that is twice as hard as traditional stainless steel.

* Depending on cabinet construction, a different cabinet size may be required. Consult the cabinet manufacturer. See page 133 for important installation information.

The innovative BLANCO ATTIKA drop-in bowl with its elegant and exclusive elevated rim appeals for its filigree yet solid looks and gentle contours. ATTIKA features a generously proportioned bowl with a user-friendly depth of 10" (254 mm). Its solid yet delicately formed 10 mm radius corners will appeal to those who appreciate pure and efficient design. ATTIKA will delight architecturally minded planners and builders in particular but will also be appreciated by individuals who take pleasure in exceptional design. As a part of the STEELART brand, ATTIKA sinks are made to perfection.

Classic. Timeless.
Beautiful.

Sink: BLANCO QUATRUS® DROP IN 1.0, Stainless Steel
Faucet: BLANCO CULINA™, Classic Steel

BLANCO Stainless Steel - with over 90 years' experience in kitchen technology, design and manufacturing, BLANCO offers the ultimate in stainless steel quality and craftsmanship. A stainless steel sink is classic and timeless, and integrates beautifully in any kitchen environment.

Built with superior steel, convenient features and German engineering, BLANCO offers a wide range of stainless steel sink styles designed to suit a wide variety of floorplans and design themes. Made from premium quality 304 series, 18/10 chrome-nickel content, BLANCO stainless steel sinks are engineered in Germany to exacting standards of precision. BLANCO sinks and faucets are supported by a Limited Lifetime Warranty.

BLANCO expertise
Extraordinary features.

Quality and Beauty

BLANCO sinks are made from superior quality stainless steel with 18/10 chrome-nickel content. BLANCO stainless steel sinks will keep their brilliance and value for decades.

Durability

Stainless steel is impervious to water stains and calcium deposits and is easy to maintain. It is nonporous, rust, stain and heat resistant.

Design

BLANCO's stainless steel selection offers a wealth of design options. Rounded or tight corners, different bowl depths, sink shapes and configurations – you can discover them all.

Accessories

Accessories are offered with many BLANCO stainless steel sink models for the ultimate experience and practicality in your kitchen.

BLANCO ANDANO™

Symphony in stainless steel.

BLANCO QUATRUS®

The perfect combination of design, price and function.

Sink: BLANCO QUATRUS® U 1 1/4, Stainless Steel
Faucet: BLANCO CULINA™ MINI, Chrome | **Accessories:** Workstation and grids

Sink features

- German designed and engineered
- Refined brushed finish
- Premium 304 series, 18 gauge (undermount) and 20 gauge (drop-in) stainless steel
- 18/10 chrome-nickel content for exceptional lustre, durability and strength
- Rear-positioned drain hole(s) for maximum usable bowl and cabinet storage
- Zero-radius corners
- X-pattern drain grooves
- 3 1/2" (90 mm) stainless steel strainer(s) included
- Clips, template, and installation instructions included
- Limited Lifetime Warranty

BLANCO QUATRUS series offers crisp lines with zero radius corners, modern styles, and lustrous finishes at affordable prices. The BLANCO QUATRUS collection comes in a variety of choices from ADA / CSA compliant to single and double bowl undermount and drop-in varieties. The majority of QUATRUS sinks can be easily combined with QUATRUS Gourmet Series accessories, which add workstation capabilities to the kitchen sink. "Rethink the Sink" by choosing a BLANCO QUATRUS sink and accessories.

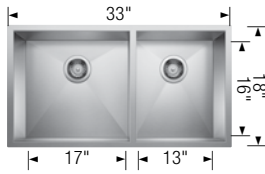

* Depending on cabinet construction, a different cabinet size may be required. Consult the cabinet manufacturer. See page 133 for important installation information.

Evolution of material.

SILGRANIT® - the material evolution and legacy continues. Over 30 years ago, BLANCO began SILGRANIT®'s development and manufacturing. Today, SILGRANIT® is the world's leading coloured kitchen sink choice.

SILGRANIT® is a patented material made of (up to 80%) natural granite that combines the textural beauty of nature with a smooth look and feel. Its strength and durability are achieved thanks to high-quality acrylic bonds. The non-porous surface with its repellent nature does not allow stains or acids to penetrate the sink's surface. SILGRANIT® offers exceptional resistance to scratches, heat and impact allowing all the heavy kitchen work to be done right at your sink. The material can withstand up to 280°C (536°F) – this exceeds common boiling, baking or broiling temperature levels. It also endures extreme temperature fluctuations between hot and cold.

Furthermore, SILGRANIT® is hygienic and food friendly – the repellent surface features the patented Hygienic+Plus protection formula that does not absorb bacteria or odours, and reduces bacteria growth by up to 98%. To ensure the product beauty is preserved, SILGRANIT® material is also non-fading.

SILGRANIT® Sink Sensation

Discover the beauty. Awaken your senses.
Explore the colours.

Sink: BLANCO PRECIS™ W/ DRAINBOARD, Metallic Gray
Faucet: BLANCO ALTA™, Chrome / Metallic Gray
Accessories: Beech cutting board, grid tray, and BLANCO CapFlow™

Reflect your individuality
with a spectrum of natural
shades.

Colour is such an important part of our lives, especially within our homes. It is a fundamental aspect of interior design, and we use it as a form of creative expression. It has the power to uplift us, energize us, soothe us and make us feel more alive.

Awaken your senses and explore our beautiful nature-inspired SILGRANIT® colours. Our palette of seven different warm and cool neutral tones are designed to help you create your perfect space. Whether you want drama with contrasting hues or a sense of tranquillity with harmonious tones - our palette has something for everyone.

Get inspired and discover the beauty of SILGRANIT®.

Available in seven nature-inspired colours.

Cool shades:

Beauty and design defined.

Sink: BLANCO IKON® 30, Anthracite
Faucet: BLANCO ARTONA®, Stainless Finish / Anthracite
Accessory: BLANCO ARTONA® Soap Dispenser, Stainless Finish / Anthracite

BLANCO Faucets. In sync with SILGRANIT® colours.

Let the beauty of SILGRANIT® go beyond your sink with BLANCO's beautiful assortment of SILGRANIT® colour-coordinated faucet finishes.

Make a stronger colour statement with one of our SILGRANIT® colour-coordinated full finish faucets or add a touch of colour with one of our dual finish varieties. Dual finish faucets coordinate beautifully with cabinetry hardware and appliances thanks to their Chrome or Stainless Finish accents.

BLANCO full finish and dual finish faucets can be matched with the full spectrum of SILGRANIT® sinks. Rethink the Sink with colour-coordinated sinks and faucets.

SILGRANIT® colour-coordinated faucet finishes:

Full Finish:

Dual Finish:

- Chrome / SILGRANIT®

- Stainless Finish / SILGRANIT®

Refer to page 96 for full BLANCO kitchen faucets' details.

Excelling in style.
Excelling in choices.

Sink: BLANCO IKON® 30, Anthracite
Faucet: BLANCO ARTONA®, Stainless Finish / Anthracite
Accessory: BLANCO ARTONA® Soap Dispenser, Stainless Finish / Anthracite

Enjoy that timeless farmhouse charm - without the farm. From farmhouse-inspired majestic kitchens to urban condos, BLANCO shows a true commitment to apron front sink design, excelling in material and design choices for this popular style. This classic sink shape originally found in large farmhouse kitchens can now be enjoyed in even the smallest, most compact urban settings.

Exclusive to BLANCO, this sink style is now available in 3 robust materials and 8 different models. BLANCO uses only the finest, most durable materials, such as SILGRANIT® and Stainless Steel. With a combined total of 20 different sizes, bowl configurations and colours to choose from, BLANCO's apron front assortment has a design solution for every lifestyle.

Traditional farmhouse and beyond.

BLANCO expertise with over twenty different apron front models to choose from.

STEELART®

Individual masterpieces crafted in Germany, in small production runs. Using a single panel of premium stainless steel, artisans transform steel into exceptional products.

Stainless Steel

With world leading stainless steel products, our QUATRUS R15 apron front collection combines farmhouse styling with contemporary details.

SILGRANIT®

The legacy continues with the first apron front of its kind, made from a patented natural granite composite material known as SILGRANIT®.

Fireclay

Old world elegance meets sophisticated design. Hand-finishing techniques and high firing temperatures resulting in a smooth, glossy, durable surface.

BLANCO STEELART® Apron Front Sinks

Art of precision in every detail.

Sink: BLANCO PRECISION™ Durinox™, Stainless Steel **NEW**
Faucet: BLANCO PANERA™, Stainless Steel **NEW**

Sink features

- Made in Germany
- Premium 304 series, 18 gauge stainless steel
- 18/10 chrome nickel content
- Rear positioned drain hole
- Zero-radius corners
- Clips and 3½" (90 mm) stainless steel strainer included
- Limited Lifetime Warranty

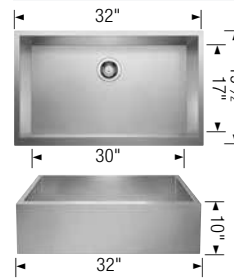

BLANCO PRECISION Apron Front sinks - available in both STEELART Durinox and STEELART satin polish finish, are one of the finest examples of STEELART craftsmanship. These original masterpieces are manufactured in Germany in smaller production runs, using a single panel of premium stainless steel. With crisp lines, zero radius corners, and a beautiful 10" deep apron, this farmhouse sink is the perfect choice for those with an eye for high end design.

BLANCO SILGRANIT® Apron Front Sinks

The first apron front of its kind.

Sink: BLANCO IKON® 33, Metallic Gray
Faucet: BLANCO CULINA™, Classic Steel

Sink features

- Made in Canada
- Natural granite composite material
- Exceptional resistance to heat, scratches and impact
- Repellent material; non-porous surface
- Hygienic+Plus surface - protects against bacteria
- Rear-positioned and centred drain hole
- Cabinet template and 3½" (90 mm) stainless steel strainer included
- Limited Lifetime Warranty

The BLANCO IKON sink collection combines the popular apron front style with the beauty, strength and durability of our patented SILGRANIT® material.

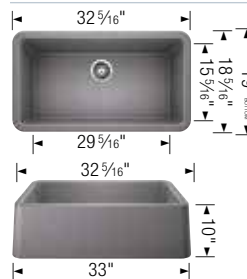

This revolutionary collection now comes in all seven SILGRANIT® colours and two different sizes; our standard 30" and a larger 33". With its slightly angled apron design and colourful natural stone beauty, this sink will add a bold, architectural statement to your kitchen.

- No template or DXF file provided
- Limited Lifetime Warranty

Whatever your style preference, our fireclay apron front sink collection tells a unique story. Hand-finishing techniques and high firing temperatures are used during the production of a BLANCO FIRECLAY sink, resulting in a smooth, glossy surface that is both incredibly durable and beautiful.

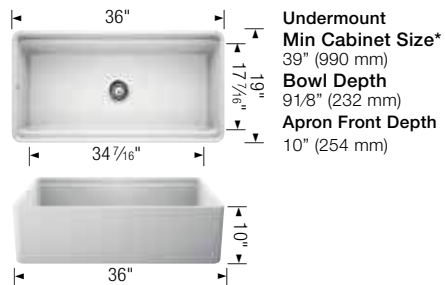

Our 36" width galley-style BLANCO PROFINA features a unique design with innovative accessories, adding highly functional workstation convenience.

Note: Special Installation Instructions - a custom sink base and support system are required for installation of this sink. The cabinet area beneath the sink MUST be reinforced to provide sufficient support. Wood or metal support frame for the sink must support 400 lbs (182 kg).

Greater accessibility by design.

Sink: BLANCO PRECIS™ SINGLE 25 ADA / CSA, Anthracite
Faucet: BLANCO ARTONA®, Stainless Finish / Anthracite

Everybody can appreciate a kitchen that is spacious, organized, safe and well planned. Effective design provides greater accessibility and implements the unique principles of universal design in a way that helps aging generations and people with disabilities truly engage with their built environment.

Designing for accessibility and the concept of aging in place is focused and intentional. Accessible design incorporates long term design elements that provide flexibility for families, couples and individuals with a diverse range of ages and abilities. Kitchen designers recognize the sink space as an important part of the working triangle, formed by the sink, stove and refrigerator. An efficient kitchen maximizes independence and maneuverability, while also keeping this working triangle compact.

Universally accessible kitchen design.

BLANCO helps kitchen designers, builders and plumbers keep the sink area functional and accessible by offering ADA / CSA B651 compliant sinks designed specifically for this market segment.

Accessible design

A shallow bowl with a rear-positioned drain hole helps to provide sufficient knee clearance when the sink is used from a seated position.

Material options

Both Stainless Steel and SILGRANIT® sink models are available. SILGRANIT® is a durable, easy to clean natural granite composite material.

Installation versatility

BLANCO ADA / CSA compliant sink models are available in both undermount and drop-in varieties.

Easy to use faucets

BLANCO has a variety of single lever and automatically activated faucets – providing easy control of water temperature, flow and direction.

BLANCO Stainless Steel ADA / CSA Sink

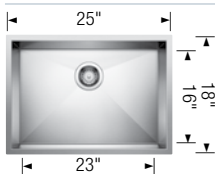

Sink: BLANCO QUATRUS® U 1

BLANCO Faucets. Inspiring Styles. Extraordinary Finishes.

Faucet: BLANCO SOLENTA™ SENSO, Stainless Finish **NEW**

The perfect finishing touch in every style.

With over 100 shapes, sizes and colour combinations, BLANCO faucets are also supported by a variety of matching bar / prep faucets, beverage faucets and soap dispensers.

Semi-professional

Inspired by faucets used in commercial kitchens, semi-pros feature details such as pressure sprayers, flexible spring coils and magnetic handspray holders.

Colour-coordinated

These faucets are designed to match the full spectrum of SILGRANIT® sink colours and are available in both Full Finish and Dual Finish varieties.

Contemporary

Modern, minimalistic design defines this faucet style. Features such as low arcs and pull-out sprayheads are typically used, as seen in the stunning new PANERA.

Classic

Traditional, elegant and ornate with modern functionality and performance. The new EMPRESSA collection is a modern interpretation of a classic style.

Extraordinary finishes only from BLANCO.

Chrome

Highly reflective, smooth finish with a brilliant shine.

Stainless Finish

Slightly softer brushed finish with a cool undertone.

Classic Steel

Deep, rich brushed finish with a warm undertone.

Stainless Steel **NEW**

(Exclusive to PANERA™ faucet) Gently brushed raw steel with a matte finish.

SILGRANIT® Full Finish

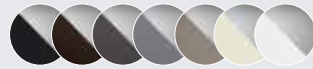

SILGRANIT® Dual Finish

- Chrome / SILGRANIT®

- Stainless Finish / SILGRANIT®

Envy. Desire.
Experience it all.

Faucet: BLANCO DIVA™, Chrome

Built to perfection.
Designed to last.

Premium Quality

BLANCO faucets are made of solid brass or stainless steel construction, and includes ceramic cartridges.

Easy Installation

All BLANCO faucets are equipped with colour-coded, flexible braided stainless steel inlet hoses for easy installation.

Convenience

Many faucets include our patented silicone nozzles. Rub them with your fingertip to prevent buildup from lime scale deposits.

Function

Pull-out sprayheads, magnetic handspray holders, and sensor technology provide the ultimate convenience.

Award-winning design

BLANCO faucets are continuously awarded for their outstanding designs worldwide.

Note: All BLANCO faucets require the same size, 1 3/8" diameter drilled faucet hole.

All faucet parts that are required for installation are included in the faucet packaging.

Faucets guaranteed for life. See page 136 for full warranty.

Never before has function looked so fabulous.

Accessory: Colander

A wide range of custom sink accessories create a whole new kitchen experience, offering added convenience, function, and style. BLANCO accessories are available for both undermount and drop-in sinks, as well as farmhouse sinks in stainless steel, SILGRANIT® or fireclay.

BLANCO accessories offer the highest quality in material and workmanship and are customized to fit a range of individual sink models.

Go beyond the basics with customized accessories.

Custom-fitted grids

Stainless steel bottom grids are dishwasher safe and offer protection for your sink from dishes and utensils.

Floating grids

Floating grids are available for selected SILGRANIT® sink families.

Colanders

A variety of stainless steel colanders allow for rinsing and draining pasta or vegetables right in the sink.

Crockery basket

The sectional design of our crockery basket features a removable dish rack for added functionality.

Mesh baskets

Prep work just got easier. Our collection of stainless steel mesh baskets allows for easy rinsing of fruits and vegetables.

Cutting boards

A wide variety of quality cutting boards are available - in maple, ash, beech and walnut varieties.

BLANCO QUATRUS® Gourmet Series

Rethink the Sink™

Accessories: Ash cutting board, elevated grid, bottom grid and workstation

BLANCO QUATRUS Gourmet Series provides you with a fresh approach to daily life in the kitchen. It not only complements our QUATRUS sinks, but also works with them to make your life easier. BLANCO QUATRUS Gourmet Series allows customizing your sink for your individual lifestyle needs with the ash cutting board, multilevel grids and sink workstation. Rethink the Sink with our BLANCO QUATRUS Gourmet Series*.

Installing a BLANCO sink and faucet

The best time to select a sink and faucet

If replacing an existing sink, there will be limitations based on the existing sink cutout and cabinet space on what can be selected. The ideal time to select a sink is before the start of any kitchen renovation—before layout design, counter or cabinet selection. Designers often place the sink first and design the rest of the kitchen layout from there. This ensures that the completed kitchen has the optimal workstation and functionality—with enough room and the right sink and faucet to suit your needs. As faucets are increasingly becoming one of the key design elements in the kitchen, this pre-planning will ensure that there are plenty of options for selecting a faucet that will fit and suit the layout.

Counter and cabinet size guidelines

When replacing a sink, the sink choice is restricted by the size of the cabinet and countertop. You can either choose a sink that fits the existing sink cutout or if your sink base cabinet allows, expand the cutout by cutting away additional countertop material and select a larger sink.

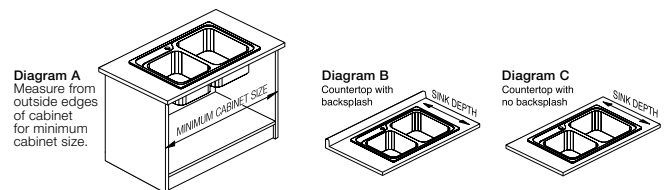

Measuring correctly will help save time. Measure the cabinet size under the existing sink or where the new sink will go. Measure from gable to gable (left to right) See Diagram A. Be sure to measure from outside an edge to an outside edge. This is the 'Minimum Cabinet Size', and this size is noted next to each sink model in the BLANCO catalogue. Most kitchen cabinets are standard 24" measurement front to back. The width (front to back measurement) of the sink that can be used is determined by this measurement and whether or not the counter top has a backsplash. See diagrams B and C.

For Drop-in:

If the countertop has a backsplash, a sink with front to back depth of up to 20½" will fit. See Diagram B. If the countertop has no backsplash and the cabinet is of standard size, a sink that measures up to 22" deep (front to back) will fit. See Diagram C.

For Undermount:

Consult your installer. These measurements are important to ensure that enough space is allocated for fixtures and backsplash material behind the sink.

Bowl design and functionality

BLANCO bowl design offers maximum functionality and aesthetics. Tight radius corners give more usable bowl capacity while offering an ultra-contemporary look.

Rear-positioned drains maximize usable cabinet space under the sink. A flat sink bottom allows glassware and goblets to stand up preventing accidental breakage. And, deeper bowls combined with tight radius corners, allow large pots and even frying pans to sit flat in the sink, making cleanup easier.

The broad range of BLANCO sink bowl choices within any one design allows you to select a perfectly matching secondary sink for use in an island. These choices include a wide range of double bowl options and small and large single bowl designs. For many kitchens, a large single bowl may be ideal as a primary sink, particularly when most small items are washed in the dishwasher, and the sink is used primarily for large pots, cookie sheets and pans.

Installing a BLANCO sink and faucet

Choice of material

In choosing the material you should keep in mind that the kitchen sink is a heavy-duty utensil. It will show signs of wear after time but should be able to withstand the rigors of daily use for a very long time. Different materials will wear in different ways. BLANCO uses only premium materials and offers a lifetime limited warranty on all its kitchen sinks, regardless of the material. Accessories such as sink grids are ideal to protect the bottom surface of the sink. Owners should observe care instructions and use only recommended cleaning products.

Stainless Steel

Stainless steel continues to be the most common material for kitchen sinks, but not all stainless steel sinks are created equal. Chrome-nickel content is an important consideration. Chrome increases hardness and wear resistance. Nickel increases strength and improves shock resistance. Most BLANCO sinks are 18% chrome and 10% nickel (18/10), which is the preferred content for high-end stainless steel sinks. 18/10 stainless steel is completely hygienic, will not rust and will maintain its appearance much longer than lesser grade steel.

The gauge (thickness) of the steel is also an important feature. Note: Gauge is an inverse measurement—20 gauge is thinner than 18 gauge. A thicker gauge stainless steel sink will maintain water temperature longer and has more sound deadening qualities. Thicker gauge stainless steel sinks are in general more expensive. The optimal gauge is 18.

SILGRANIT®

There are a wide range of coloured sinks available today, however not all share the heat and scratch resistance of SILGRANIT®. There are also both soft composites and hard composites available. These come in a variety of finishes, some having only surface colour and some coloured all the way through. Many soft composites have a dull finish. These soft composites are usually more porous and have a low heat rating (a hot pot could burn the surface). Soft composites are usually less expensive but also tend to show signs of wear soon after being installed. BLANCO SILGRANIT® is a rock-hard composite material, formed using natural granite (up to 80%). Coloured all the way through, SILGRANIT® is extremely scratch and chip resistant and has a heat rating of up to 280° Celsius.

Most BLANCO SILGRANIT® sinks are equipped with additional knock-out holes for faucet fixtures and accessories. These holes are marked on the sink deck with removable stickers and must be punched prior to installing the sink.

BLANCO faucets finishes

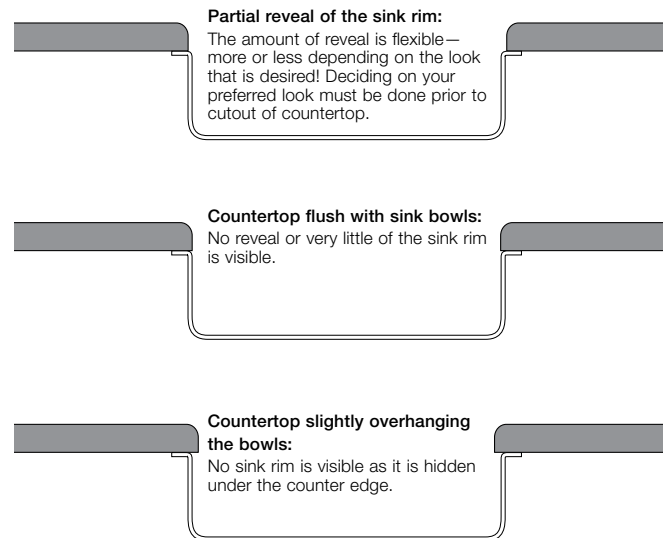

Exclusive to BLANCO, our kitchen faucets are available not only in chrome and stainless variation but also in SILGRANIT® colour-coordinating finishes. Our metal-look finishes include Chrome with its shiny properties, Stainless Finish (PVD) with its slightly softer variation of stainless look, Classic Steel that provides the rich finish of stainless beauty, and Stainless Steel, a gently brushed steel with a matte finish. Our faucet finishes can be easily paired with BLANCO SILGRANIT® sinks with the selection of SILGRANIT® colour-coordinating finishes (powder coated finish), Full Finish or Dual Finish – a combination of Chrome and SILGRANIT®, or combination of Stainless Finish and SILGRANIT®.

Installing a BLANCO sink and faucet

The best time to select a sink and faucet

Undermounted sinks bring a touch of refinement to any kitchen. A pleasure to own, especially at clean-up time, their design allows crumbs to be easily swept into the bowl. Truly a clean design. Three undermount reveal options are possible depending on individual preference. These options apply to both stainless steel undermounts and SILGRANIT®. Note that BLANCO templates for most undermount sinks provide a ¼ inch reveal around the bowl (i.e. only ¼ inch of the sink rim is revealed). Check the instructions on the template that comes with your BLANCO sink to see the reveal measurement allotted by that template. Sink templates are supplied only as a guide. The physical use of the sink will ensure a more accurate cutout.

Finally, ensure that enough space is left behind the sink for any fixtures that may be required—including faucet and other accessories.

BLANCO Canada Inc. Warranty

Limited Lifetime Warranty:

Stainless Steel and SILGRANIT® Sinks

BLANCO CANADA INC. hereafter referred to as BLANCO, is pleased to offer a Limited Lifetime Warranty with all BLANCO sinks used in normal domestic installations. BLANCO warrants its sinks to be free from all manufacturing defects in material and workmanship.

BLANCO will repair or replace, at no charge, excluding labour, any sink supplied by BLANCO that is proven to be defective under normal use. An equivalent replacement will be issued to the original owner provided the defective sink was installed in accordance with BLANCO installation procedures, used and cleaned as recommended and not damaged due to abuse, misuse or negligence. Chips, scratches and stains are not deemed to be manufacturing defects. BLANCO will not be held liable for chips, scratches and stains that can occur under normal use over a period of time. Please refer to cleaning instructions to maintain your sink in its original appearance. BLANCO shall not be held liable under this warranty where the sink has been used in a non-domestic application, improperly installed, or damaged from the impact caused by a heavy object being dropped on the sink or from improper handling. BLANCO shall not be liable for any inconvenience or expense for material or labour related to the removal or replacement of a defective sink or for any loss or damage to any person or property whatsoever resulting from the defective sink. All transportation costs to and from the point of purchase will be the responsibility of the purchaser.

Any sink returned must be in the original packaging and include all the accompanying accessories, parts and documentation. BLANCO reserves the right to inspect any sink reported to be defective prior to replacement of the sink.

WARRANTY EXCLUSIONS

Excluded are any accessories that accompany the sink (strainers, waste fittings, waste chutes etc.).

Accessories and Soap Dispensers

BLANCO warrants its accessories and soap dispensers to be free from manufacturing defects for a period of one (1) year from the date of purchase.

Limited Lifetime Warranty: Faucets

All faucets are thoroughly checked and tested in the factory. However, if the faucet has a manufacturing defect, BLANCO reserves the right to replace the damaged part or the entire faucet.

BLANCO warrants its faucets to be free from manufacturing defects in material and workmanship; and the finish and ceramic disk cartridge to be free from manufacturing defects and workmanship, to the original consumer purchaser of the faucet from the original date of purchase for as long as the original consumer purchaser owns their home. If the cartridge proves to be defective during the warranty period, BLANCO will provide a replacement free of charge.

Finish and ceramic disk cartridge

(*Lifetime to original consumer purchaser)

LIFETIME*

Mechanical components, hand spray and hoses

(*Lifetime to original consumer purchaser)

LIFETIME*

A new enhanced warranty program for faucets took effect April 15, 2010. (This is not retroactive to previously purchased faucets). It extends the previous 2-year limited period for mechanical components, hand spray and hoses to a Limited Lifetime Warranty period. (As before, the finish and ceramic disc cartridge have limited lifetime warranties).

This warranty does not cover faucets which have been improperly installed or subject to improper use or used in a location other than a residential kitchen or faucets which have been damaged due to mineral deposits or the

BLANCO Canada Inc. Warranty

use of corrosive or abrasive cleaning agents. This warranty does not cover shipping costs, labour costs or any other cost associated with the installation or replacement of the product/parts and is extended only to the original consumer purchaser of the faucet.

BLANCO is not responsible or liable for indirect, special or consequential damages arising out of or in connection with the use or performance of its faucets and its liability under this warranty is limited to the replacement of the defective material at the location of purchase.

Obligation of the original owner

The original dated sales receipt must be retained by the customer and is the only acceptable proof of purchase.

BLANCO makes no additional warranties, expressed or implied and any implied warranty including that of merchantability or fitness for a particular purpose, is limited in its duration to the duration of the written limited warranties set forth herein.

No employee, agent or other person is authorized to provide any warranty on behalf of BLANCO for a BLANCO product that is in addition to or different from the warranty stated above unless the warranty has been previously approved by an authorized BLANCO representative.

This warranty gives you specific legal rights and you may also have other rights which may vary from province to province.
