

PLUMBING SPECIALTIES

PASCO has been manufacturing and distributing high quality plumbing specialty items since 1936. We were the originator of what are now considered to be common specialty items. These items include packaged closet bolt sets, first introduced to the trade in 1956. In 1966 PASCO was the sole driving force to get rubber dishwasher drain hose written into the plumbing codes throughout the United States. Since that time, this product alone has saved plumbers countless hours of labor in the installations of dishwashers. More recently we have brought to the market another time saving item for the plumber, the patented Quick Ring which repairs broken closet flanges.

The professional plumber requires professional products. PASCO has for years been committed to providing items which the plumber demands.

QUICK RING

Replaces ANY Closet Ring!

United States Patent 5,890,239
Unique screw tabs attach to wood or concrete.
Plastisol coat provides corrosion protection.
Slotted for 1/4" or 5/16" closet bolt.
Old closet ring does not need to be present.
Replaces any and all closet rings.

INSTALLATION INSTRUCTIONS

FOR SOLVENT WELDED STEEL/PLASTIC COMBO AND PLASTIC CLOSET RINGS

Remove portion of broken ring, if remaining portion cannot be removed, Quick Ring will mount on top.

Apply a bead of butyl rubber caulk to the underside of the Quick Ring that will mount on top of the old ring.

Set Quick Ring on top of remaining portion of old ring. Note location of old toilet bolt slots. The length of the bolt slots in the Quick Ring allows for some centering of toilet. Secure the Quick Ring to wood or concrete sub floor with screws or anchors.

FOR CAST IRON RINGS

The Quick Ring can be mounted directly on top of an old cast iron closet ring. Drill holes in any remaining portion of cast iron ring that corresponds with holes in Quick Ring. Before securing the Quick Ring with screws, apply a bead of butyl rubber caulk to its underside. Large gaps or spaces around or underneath the closet ring, can be filled with any quicksetting type grouts, cements, etc.

PLEASE NOTE:

When setting the toilet use a wax bowl ring with plastic flange.

A QUICK, EASY, LONG LASTING
solution to loose exterior faucet's
HOSE FAUCET ANCHOR

There's never been a quick, easy lasting way to secure an exterior faucet till the patented Hose Faucet Anchor.

- Works with any wall material (brick, concrete, vinyl, or stucco)
- Repair or new home applications
- 5 Minute installation that lasts
- Fits all exterior or faucet water lines
- Corrosion free

How to mount your Hose Faucet Anchor

Loosely assemble clamp halves around the hose faucet water line on the inside of the wall using the shorter (1 1/2") screws. Slide the clamp on the pipe approximately 1" from the wall and tighten the 1 1/2" clamp screws securing the clamp to the pipe.

Thread the 3" bracing screws into the "wing" ends' threaded holes facing you. Run these screws in until they contact the wall with equal pressure

Tighten these screws alternately and equally until the faucet is secure. The screws may dig into the wood or masonry material behind the house faucet anchor. This prevents any twisting action of the house faucet when turning it on and off. Now go outside and enjoy trouble free hose faucet security

Brass Tubular

Since 1936 PASCO has manufactured and distributed high quality plumbing specialty items. In keeping with that tradition, we are now offering a complete line of brass tubular products to the plumbing trade.

PASCO's new line of brass tubular products is manufactured to the specific requirements of the professional plumber. Our chrome plated brass tubular products are triple plated with the application of copper, nickel and chrome. We take a further step to highly buff the surface, which provides a superior shine.

Finally, in accordance with plumbing codes throughout the United States, PASCO will only offer 20 or 17 gauge brass tubular products. All of our 17 gauge tubular which require nuts will only be offered with brass nuts. We won't however, be offering 22 gauge or "budget" grade tubular or will we offer a "satin" or budget chrome finish.

Professional plumbers demand that the items they install be of professional quality. PASCO has committed itself to provide that quality in this line of brass tubular products.

Brass Tubular

P Traps

All 17 gauge P Traps have CP brass nuts.
All 20 gauge P Traps have CP die cast nuts.

ICE MAKER HOOK - UP KITS

For use on refrigerators with automatic icemakers.
Also use on humidifiers.

Poly Tubing

KIT CONTAINS

- 1. 1/4" x 25' Poly tubing
- 1. Self-piercing needle valve
- 1. 1/4" Compression union
- 1. 1/4" 90° Compression coupling
- 4. 1/4" Brass insert sleeves
- 4. 1/4" Delrin insert sleeves
- 1. 1/4" Compression male

PART NUMBER	DESCRIPTION
2045	Hook - Up kit
2056-25	25' Poly tubing ONLY

Copper Tubing

KIT CONTAINS

- 1. 1/4" x 25' Copper Tubing
- 1. Self piercing needle value
- 1. 1/4" Compression union
- 1. 1/4" Compression male
- 1. 1/4" 90° Compression elbow

PART NUMBER	DESCRIPTION
2049	Copper hook up kit only
2059-25	25' Copper tubing ONLY

GRANULATED CARBON FILTER

Filters contain granulated carbon for taste and odor removal from municipal drinking water.

SPECIFICATIONS:

- Container - Polypropylene
- Media- Activated Carbon
- Filter/Screen - Polyestr Felt
- Micron Size - 20
- Flow Rate - 1 GPM @ 60 PSI
- Life Span - 3-6 months
- Effective Filterings - 2000 gal.
- Temp Rating - 120° F
- Pressure Rating - 125 PSI

PART NUMBER	DESCRIPTION
2060	Use 1/4" Compression Fittings
2060-38	Use 3/8" Compression Fittings

SELF - PIERCING NEEDLE VALVE

For 3/8" To 1" Copper Tube

KIT CONTAINS:

- 1. Needle valve
- 1. Saddle clamp
- 2. Nuts
- 2. Bolts

PART NUMBER
2162
