

# Q-SERIES™

## 2025 COMPLIANT REFRIGERANT COMMERCIAL PACKAGED ROOFTOP UNITS

GAS/ELECTRIC, ELECTRIC/ELECTRIC OR HEAT PUMP UNITS, RANGING IN SIZES FROM 3-5 TON

UP TO 13.4 SEER2  
AND 10.6 EER2

### QUICK INSTALLATION. TRUSTED QUALITY.

Q-Series™ rooftop units install quickly with quality you can trust. Thanks to smart time-saving features, the Q-Series arrives at the jobsite ready to install, making it an excellent choice for your light commercial applications.

### FOR A CLEANER TOMORROW

We believe building for tomorrow is as important as building for today. The transition to low Global Warming Potential (GWP) refrigerants represents a positive step for the environment, as it significantly reduces the impact of harmful greenhouse gases.

The new refrigerant used in our products reduces global warming potential by 78%\*. That helps all of us reduce our environmental impact and build toward a cleaner future for everyone.

*\*Global, national, state, and local GWP requirements may change at any time without notice.*

### EASY TO INSTALL AND SERVICE

- No special rigging or brackets required for placement
- Side and bottom connection entrances
- Easy-to-install, plug-and-play accessories that do not require disassembly
