KOHLER®

INSTALLATION INSTRUCTIONS

Insert ➡

Use this tool to remove the jet trim on the Kohler Whirlpool System.

TO REMOVE JET. Grip tool tightly in hand. Turn jet ball nozzle up completely. Insert tool with hook end up and catch the inside top of the ball as shown. Push thumb against bath wall as shown and firmly pull out jet assembly by positioning the hooked end of the tool into the ball hole. Be careful not to lose the O-Ring.

NOTE: The nozzle must remain pointed up or the tool will slip off.
